

Exploration & development of high-grade gold mineralisation in world-class terranes of Côte d'Ivoire

Open-Pit Pre-Feasibility, Underground Scoping Studies and resource expansion programmes underway

INVESTOR PRESENTATION

October 2026

MANY PEAKS

ASX:MPK

For personal use only

Disclaimer and Cautionary Statement

This Presentation has been prepared as a summary only and does not contain all information about Many Peaks Minerals Limited's ("MPK" or the "Company") assets and liabilities, financial position and performance, profits and losses, prospects and rights and liabilities. The information in this Presentation and made to you verbally is subject to updating, completion, revision, further verification and amendment without notice.

The information contained in this Presentation or subsequently provided to the Recipient of this Presentation whether orally or in writing by or on behalf of the Company or its employees, agents or consultants ("Information") is provided to the Recipients on the terms and conditions set out in this notice. The purpose of this Presentation is to provide Recipients with Information relating to the Company. The Presentation has been prepared by the Company and each Recipient must make his/her own independent assessment and investigation of the Company and its business and assets and should not rely on any statement or the adequacy and accuracy of any Information contained in this Presentation.

The Company makes no representation or warranty (express or implied) as to the accuracy, reliability or completeness of the Information. The Company and its directors, employees, agents and consultants shall have no liability (including liability to any person by reason of negligence or negligent misstatement) for any statements, opinions, information or matters (express or implied) arising out of, contained in or derived from, or for any omissions from the Presentation, except liability under statue that cannot be excluded.

The performance and operations of the Company may be influenced by a number of factors, many of which are outside the control of the Company. No representation or warranty, express or implied, is made by the Company or any of its directors, officers, employees, advisers or agents that any intentions, expectations or plans will be achieved either totally or partially or that any particular rate of return will be achieved. This Presentation does not constitute in any way an offer or invitation to subscribe for securities in the Company pursuant to the Corporations Act.

Statements regarding the Company's plans with respect to its mineral properties are forward-looking statements. There can be no assurance that the Company's plans for development or proposed exploration activity will proceed as currently expected. There can also be no assurance that the Company will be able to confirm the presence of mineral deposits, that any mineralisation will prove to be economic or that a mine will successfully be developed on any of the Company's mineral properties.

The information in this report that relates to Exploration Results is based on, and fairly represents, information compiled by Mr Travis Schwertfeger, who is a Member of the Australasian Institute of Geoscientists. Mr Schwertfeger is the Managing Director of the Company and has sufficient experience which is relevant to the style of mineralisation and type of deposit under consideration and to the activity he is undertaking to qualify as a competent person as defined in the 2012 Edition of the "Australasian Code for reporting of Exploration Results, Exploration Targets, Mineral Resources and Ore Reserves" (JORC Code). Mr Schwertfeger consents to the inclusion in this report of the matters based upon his information in the form and context in which it appears.

References may have been made in this announcement to certain past ASX announcements, including references regarding exploration results. For full details, refer to the referenced ASX announcement on the said date. The Company confirms that it is not aware of any new information or data that materially affects the information included in these earlier market announcements.

Released with the authority of the board of Many Peaks Minerals Limited.

Key Milestones

Ferké Gold Project – Maiden MRE

26.7Mt @ 1.54g/t Au

(at a lower cut-off of 0.38g/t Au) comprised of;

- 23.1Mt @ 1.47g/t Measured & Indicated
- & 3.5Mt @ 2.00g/t Inferred

1,323,000 ounces (83% M&I) [1]

>51,000m of 60,000m drilling in 2026 (AC, RC, Diamond) – *Complete*

Post maiden MRE Drill Results include a 70% increase to vertical extent at Ferké

Strategy & Key Objectives

Ferké MRE Update - *October 2026*

Pre-feasibility study for Open Pit Development – *In Progress*

Underground Scoping Study - *In Progress*

- Mining Application – early 2027

Post Maiden MRE results at Ferké:

- **188.9m @ 3.58g/t Au from 633m** [9]
- **116.0m @ 2.78g/t Au from 524m** [5]
- **116.5m @ 1.76g/t Au from 969.5m**[5]
- **36.0m @ 2.64g/t Au from 600m** [6]
- **39.8m @ 3.94g/t Au from 53.5m**[7]
- **106.7m @ 2.52g/t Au from 154.75m**[8]
- **95.0m @ 2.28g/t Au from 253m**[8]

The Team

Experienced Board with an exceptional mine development and exploration discovery track record

Francis Harper *Non-Exec Chairman*

- Blackwood Capital Co-founder, Previously with TIE, MSR, WAF, PDI

Travis Schwertfeger, *MD*

- Many Peaks Founder, Previously with AQI, EXR, Current NED with ASX: LIB

Matt Scully, *COO & Exec Director*

- Experienced West African Mine Builder, Commissioned gold projects with WAF, PRU, EVN

Marcus Harden, *NED*

- A founding NED with MPK and Currently President of TSX-V:GLAD & NED with ASX:PKO

Ben Phillips, *NED*

- Executive Chair of ASX:NFL & NED & Non-Exec Chair of ASX:MHM

Management Team

Successful West Africa Background

Travis Schwertfeger

Managing Director

Geologist, with +25yrs global minerals sector experience in project development, mining operations, exploration and resource estimation; over 10 years' operating in West Africa.

A Former Director of Exore Resources (acquired by Perseus Mining in 2020) and previously held roles with Newmont Mining Corp., Hecla Mining, and executive and non-exec roles with various ASX and TSX listed companies. Currently a NED with Liberty Metals (ASX:LIB)

Matthew Scully

COO & Exec Director

Mr Scully brings over 20 years of technical and operational leadership in the minerals sector, with deep expertise in feasibility studies, project development and mine operations.

Previous senior roles held at Perseus Mining, and Evolution Mining Limited, and most recently, Project Director with West African Resources and commissioned the 8.4 Mtpa Kiaka Gold Project in Burkina Faso ahead of schedule and under budget. Currently

Jamie Byrde

Company Secretary & CFO *(Commencing 26 October)*

Jamie has over 20 years' experience in corporate governance, audit and company secretarial roles. He has held senior financial positions with several ASX-listed companies and is an experienced CFO and Company Secretary with experience in management, Board governance, ASX/ASIC compliance and reporting for resource-focused businesses

Jamie is currently an Exec Director of Critica and Non-Executive Director of Codrus Minerals Limited

Mohamed Niaré

Country Manager

With over 25 years' experience in the mining and exploration sector, Mohamed has provided tenement management, corporate governance, logistical support and community engagement for multiple public and private West African focused companies.

Previous senior administrative roles in with West African focussed mining companies including Newmont, Randgold and Resolute.

Tidiane Konaté

Principal Geologist

Qualified Geologist with >10 years' exploration experience, holding a degree in geological engineering from the Institut National Polytechnique-Félix Houphouët-Boigny (INP-HB).

Previous exploration experience includes former role with Barrick Mining and spans across opportunities in Egypt, Mali and Côte d'Ivoire.

Jean-jacques Ettien

Accounting / HR

Mr Ettien works in the fields of Accounting, Finance and Human Resources with experience across the West African sub-region, in various exploration and service companies in the mining sector.

Graduated from the National Institute of Economic and Accounting Techniques of the Conservatoire National des Arts et Métiers de Paris (Intec Paris), from EMLYON BUSINESS SCHOOL, and holds two specialized master's degrees in Finance and Human Resources (Pigier Côte d'Ivoire and Félix Houphouët Boigny University).

ersonal use only

Côte d'Ivoire

Top tier Jurisdiction for mineral development in West Africa

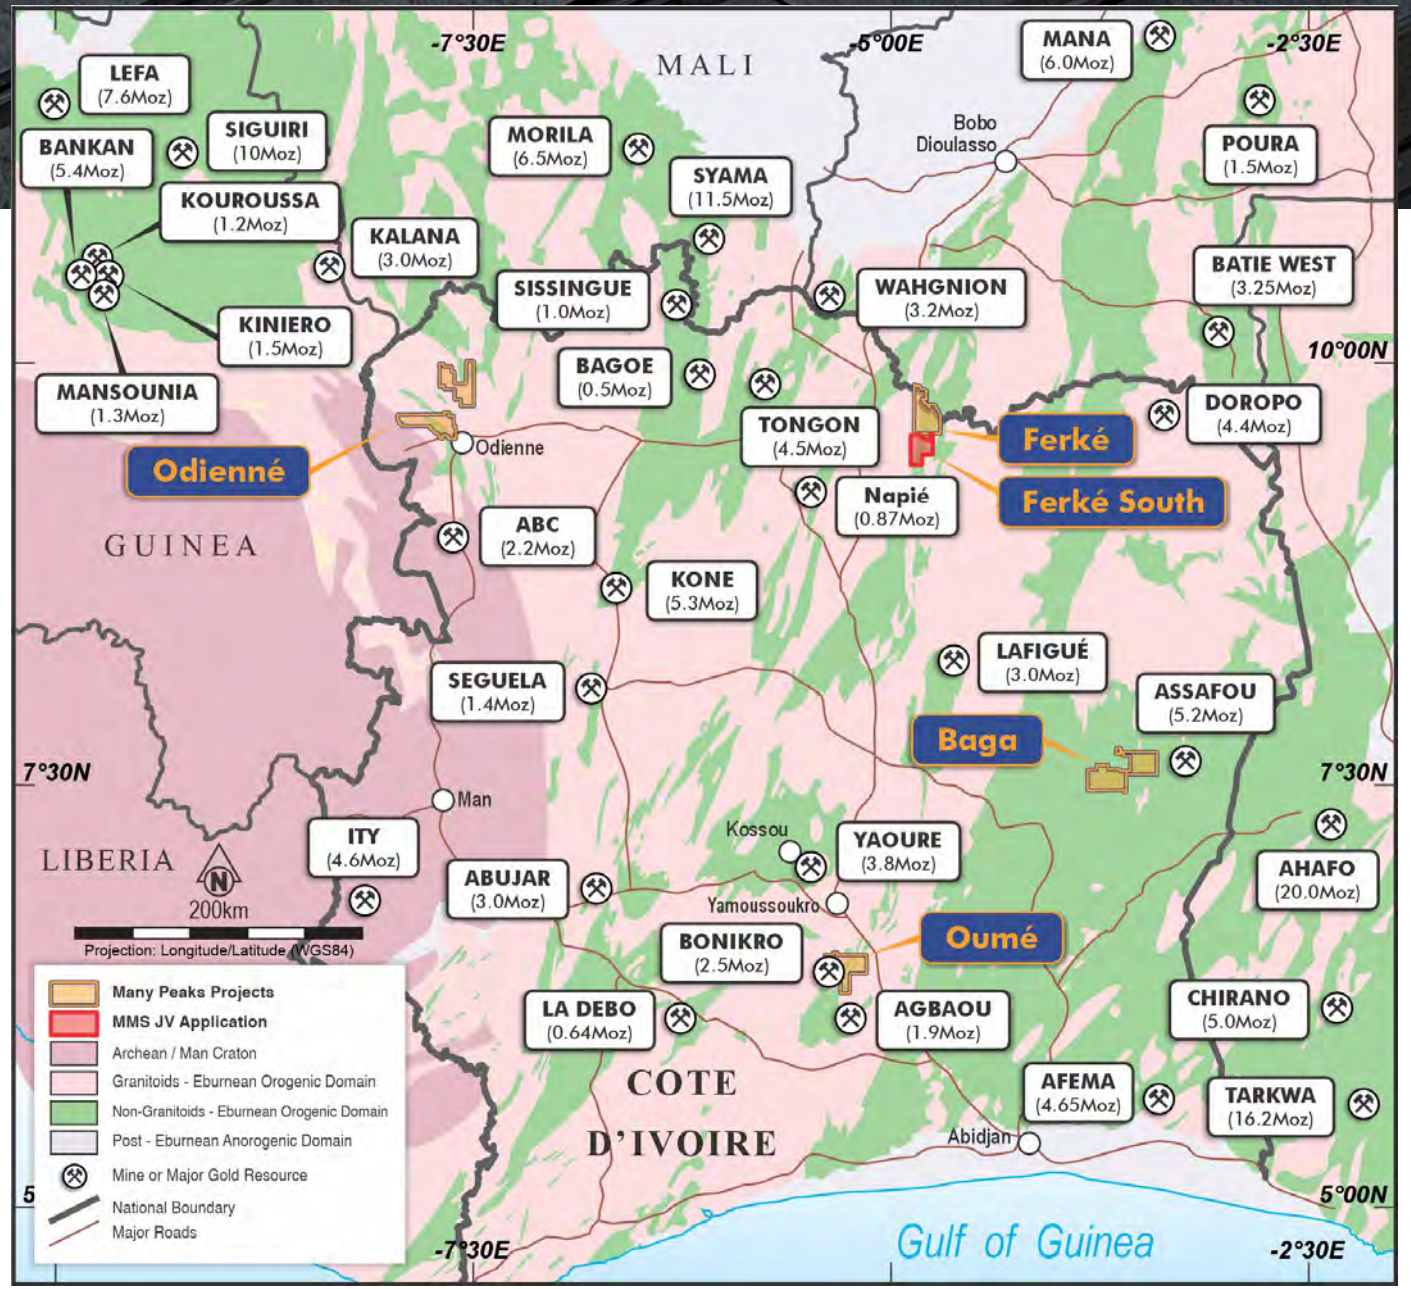

Stable and attractive mining investment jurisdiction

Reported National gold production of approximately **59.33 tonnes Au in 2025** Note 2

- *Over 3x Increase from ~18 tonnes in 2014* Note 3

Government target stated of **100 tonnes of annual gold production by 2030** 2

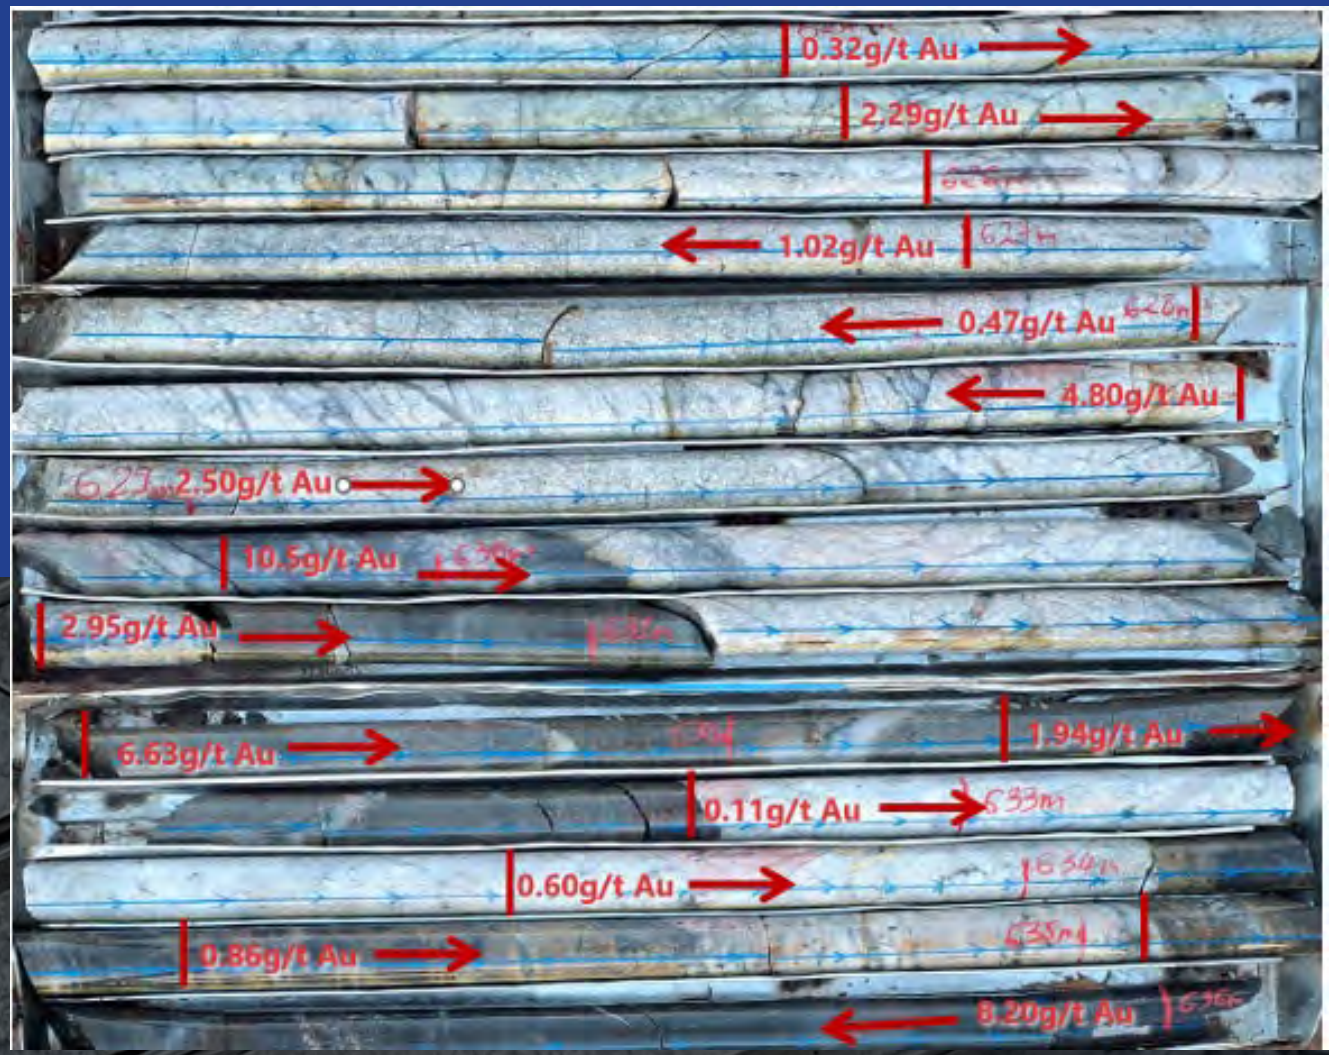

Personal use only

Ferké Gold Project

FNDC135, 12m @ 3.07g/t gold viewed at 624m to 636m depth. Located within a broader reported significant intercept of 36m @ 2.64g/t gold

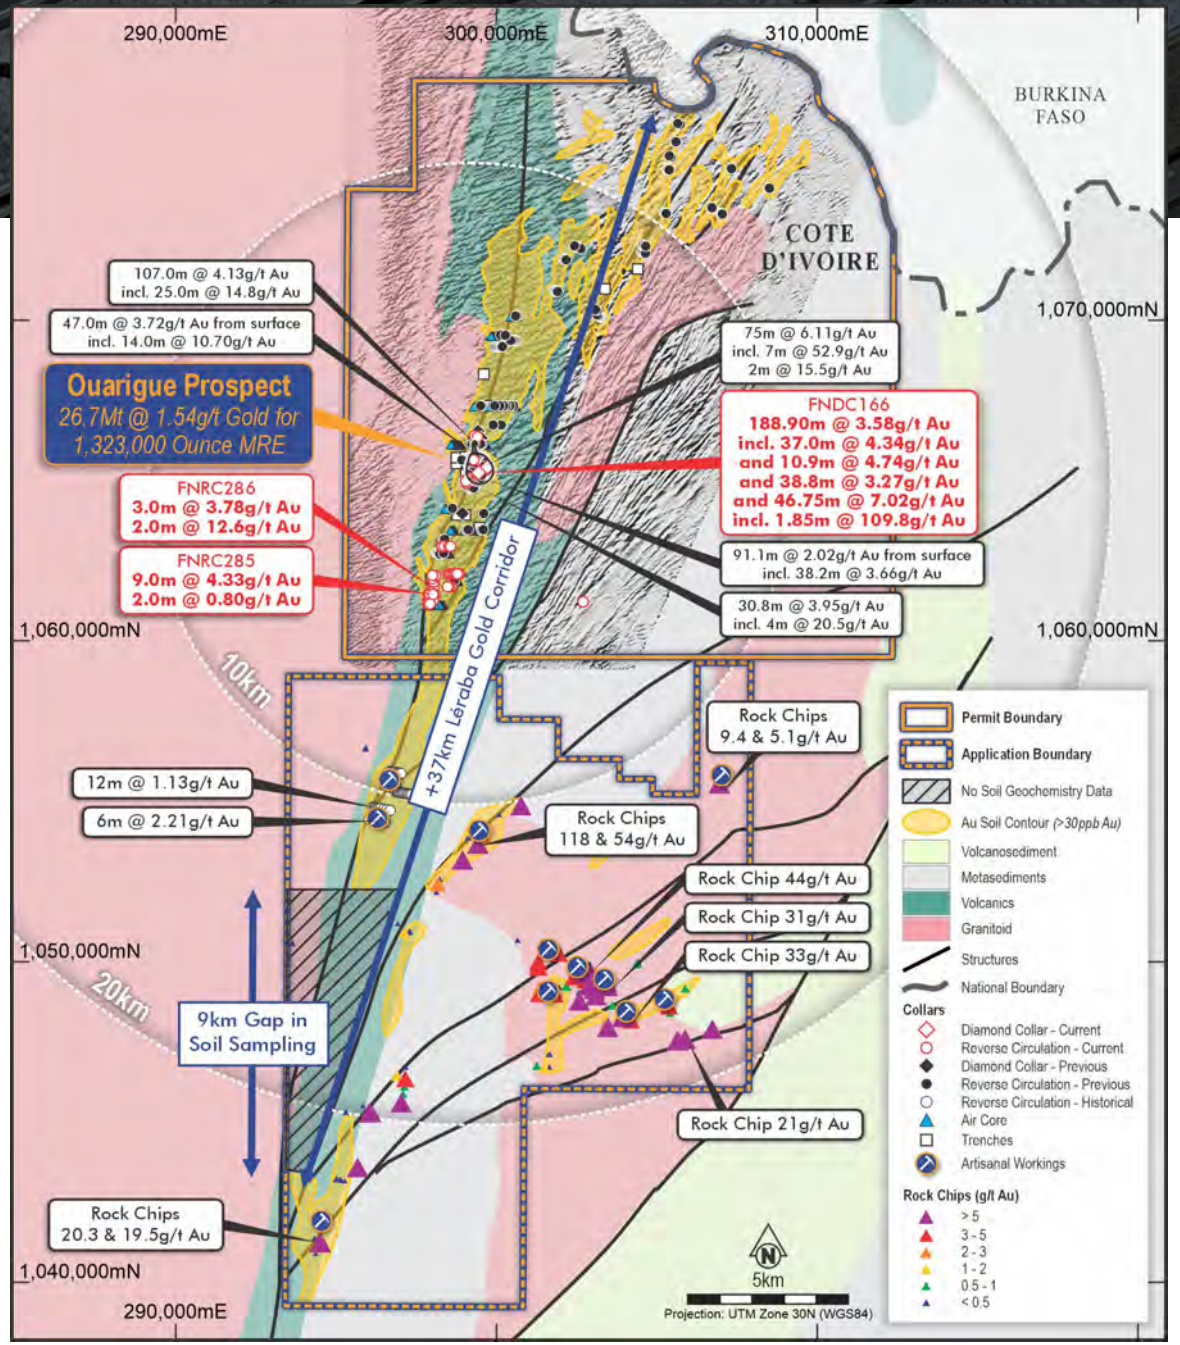

For personal use only

Ferké Gold Project

Maiden MRE with Extensive Exploration Upside

- **Initial MRE of 1.3Moz at 1.54g/t gold** with 83% in Measured and Indicated, and ongoing drilling focused on expansion and further delineation
- **Focused Diamond Drilling:** significant volume increases to Ouarigue prospect last 6 months (post MRE). Drilling demonstrating increasing grades with depths include:
  - **188.9m @ 3.58g/t Au** from 633m (*95m true width*), incl. **46.75m @ 7.02g/t Au**
  - **116m @ 2.78g/t Au** from 524m (*63.5m true width*), incl. **40.3m @ 3.89g/t Au**
  - **75m @ 6.11g/t gold** from 427m (*64.5m true width*) incl. **7.07m @ 52.9g/t**
- **Preliminary Metallurgy:** 94% average recoveries from bottle roll tests indicate **mineralisation amenable to cyanide leach processing** methods
- **Pre-feasibility Study:** **Open Pit development plus Underground Scoping Study being initiated – Integrated into economic evaluation**
- **Regional Exploration:**
  - **>37km mineralised corridor,** multiple drill-ready targets for RC and diamond drilling testing in 2026 field season
  - Ferké South permitting advancing – committee of ministers' approval late 2025 and drilling pending signing of presidential decree

OUARIGUE PROSPECT, SECTION 1,065,200N

Refer to ASX: MPK release dated 13 October 2026 – Section update

sonal use only

Ferké Gold Project

Ferké North Regional Exploration

2025 reconnaissance returned significant gold intercepts on every line of RC/AC in wide-spaced (800m to 2400m) drilling

2026 First drilling outside Ouarigue closing to 200m line spacing returns **9m @ 4.33g/t gold on >3km step-out** from Ouarigue

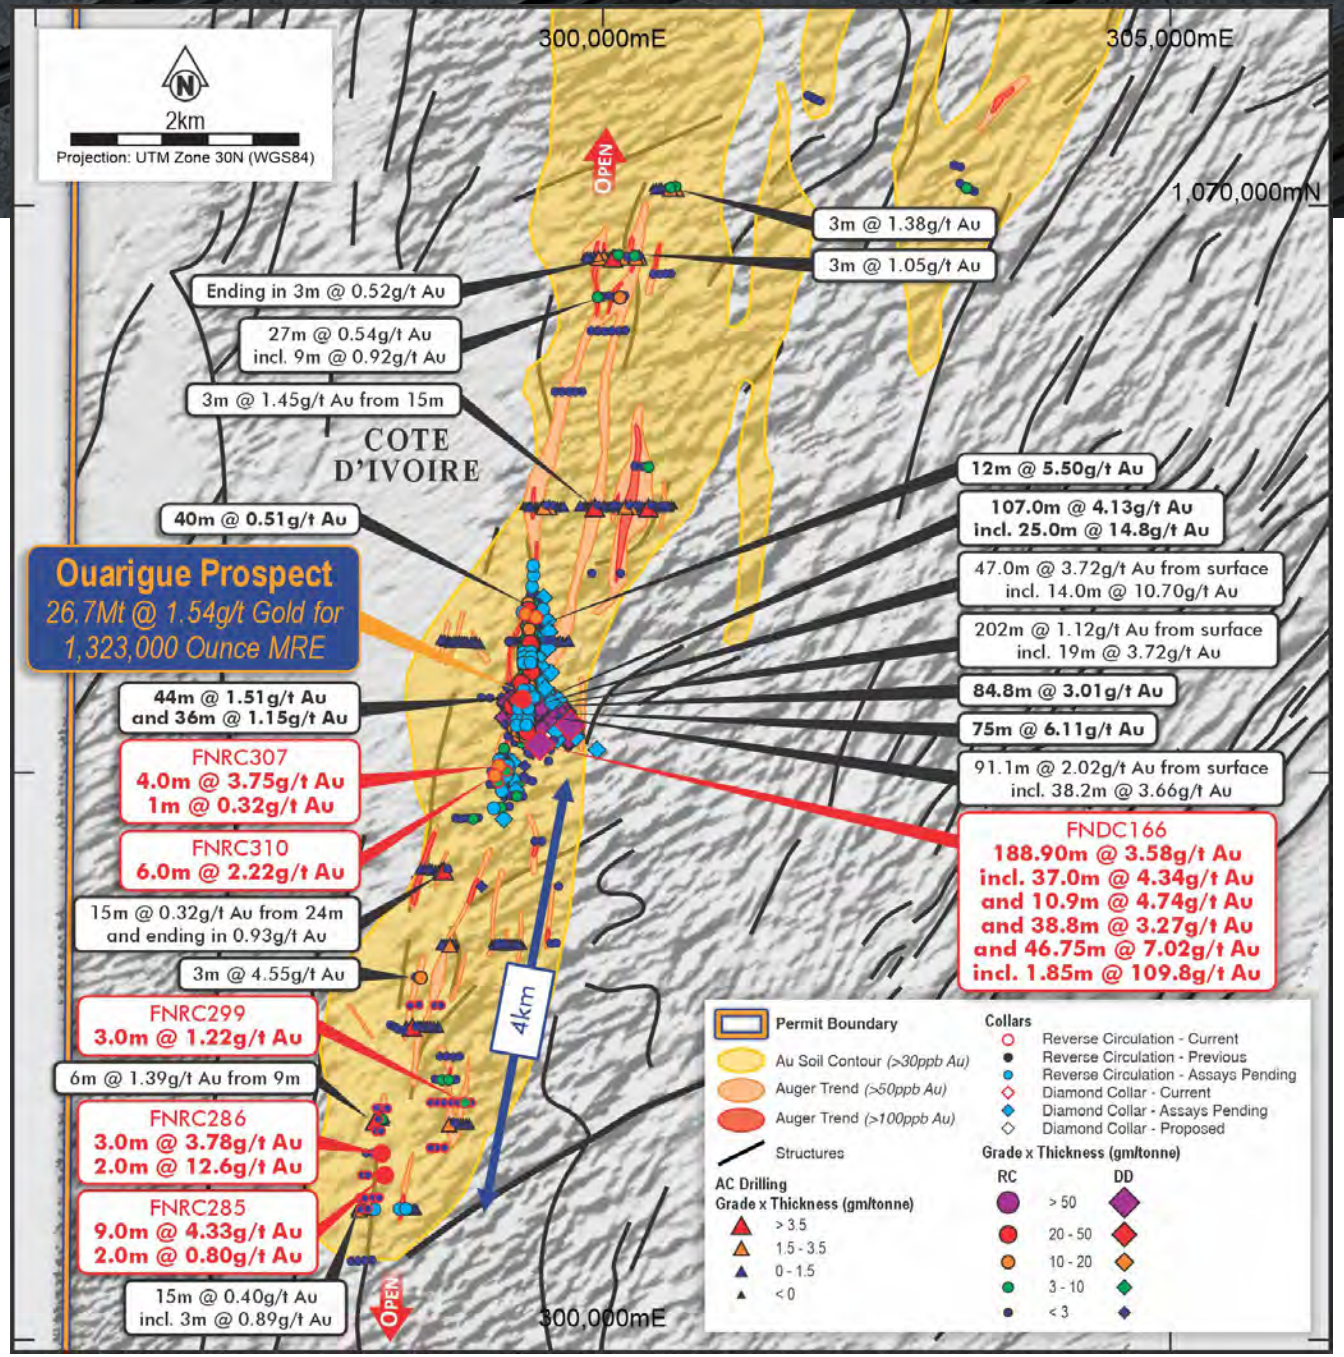

14,273m in 124 RC holes completed post maiden MRE

3,800m in 34 RC holes – Pending Assay

- Significant regional potential on Regional Expansion targeting new discoveries
- Regional Reconnaissance drilling to recommence in October this year
- Expansion targets to MRE drilled

NEXT STEPS: Reconnaissance Drilling, and more targeted follow-up on regional success recommences end of October

Focus on additional discovery along the >38km of Leraba trend, extending onto Ferké South

ASX release dated 20 August 2025 – Results highlighted in red.

Also refer to ASX releases dated 26 March 2024, 17 March, 20 May , 24 June & 15 July 2025

Personal Use Only

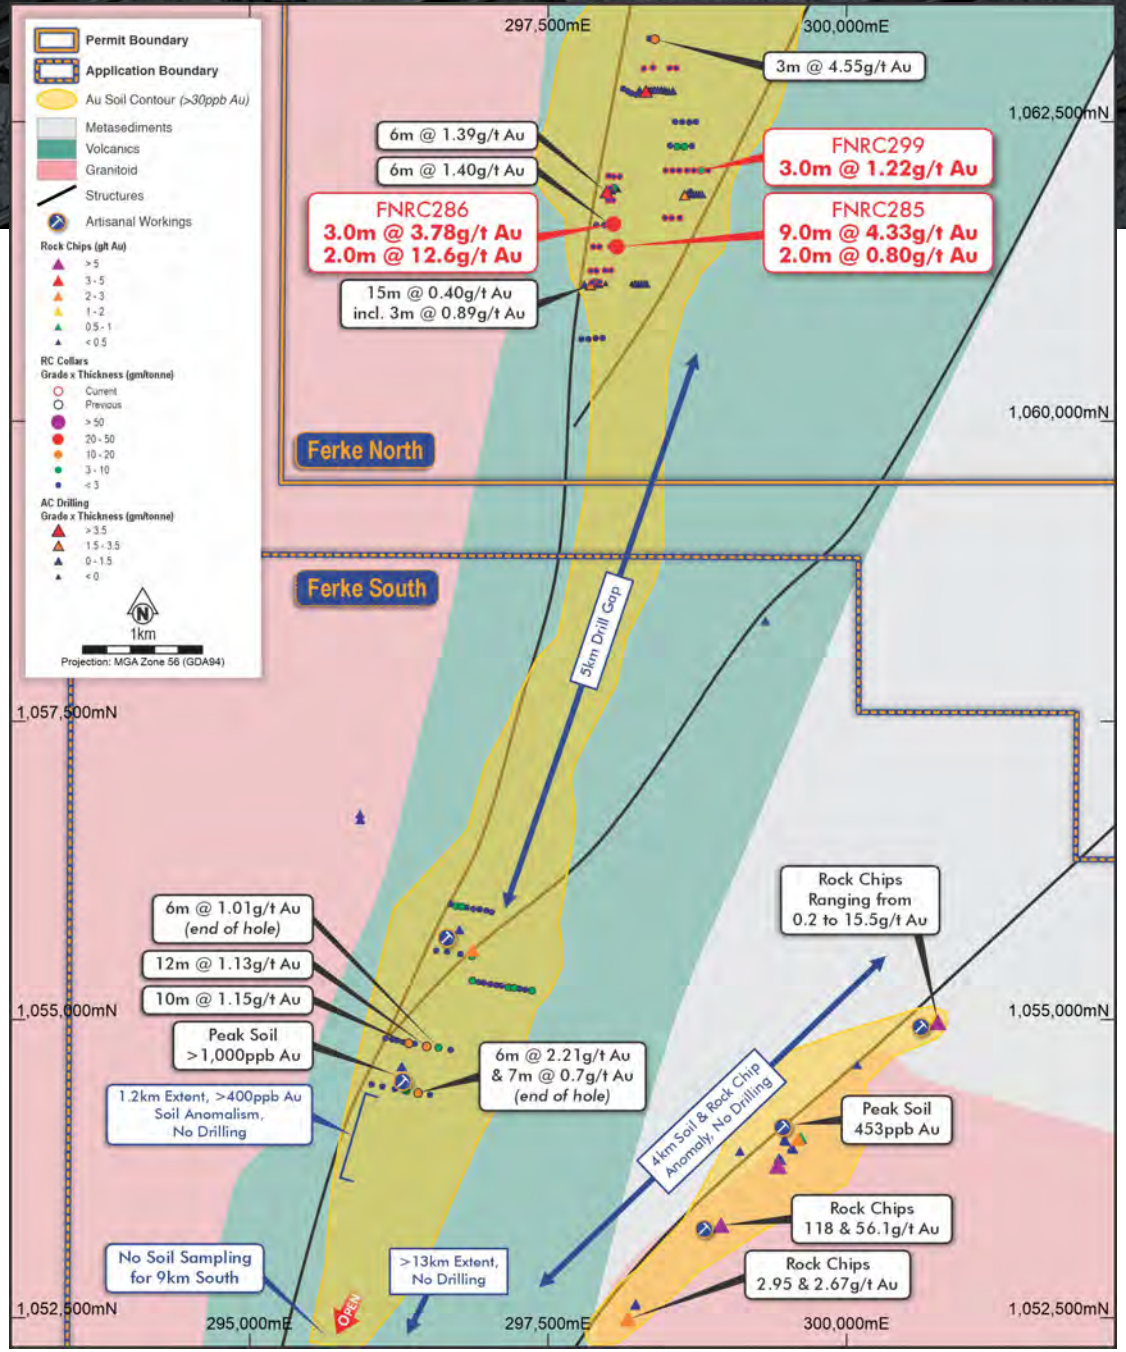

Ferké Gold Project

Ferké South – Historical Drilling

2010 Reconnaissance RC – Auger, Air Core, and RC drilling highlights multiple drill-ready targets

- **Significant intercepts** recorded on every line of historical drilling, testing at Ferké South, drilling only a 1.6km segment of the >38km corridor of gold mineralisation
- Recent **RC success defines targets Ready for Follow-up**, on granted Ferké North permit
- Ferké South historical drilling, **remains open in all directions** and confirms the mineralised Leraba gold corridor extends south
- **Historical drilling 10km south of the Ouarigue MRE returned,**
  - **6m @ 2.21g/t gold** from 4m, and **7m @ 0.7g/t from 50m** (end of hole)
  - **12m @ 1.13g/t gold** from surface
  - **10m @ 1.15g/t gold** from surface
  - **6m @ 1.01g/t gold** from 60m (end of hole)

Refer to ASX release dated 26 March 2026

ersonal use only

Odienné Gold Project

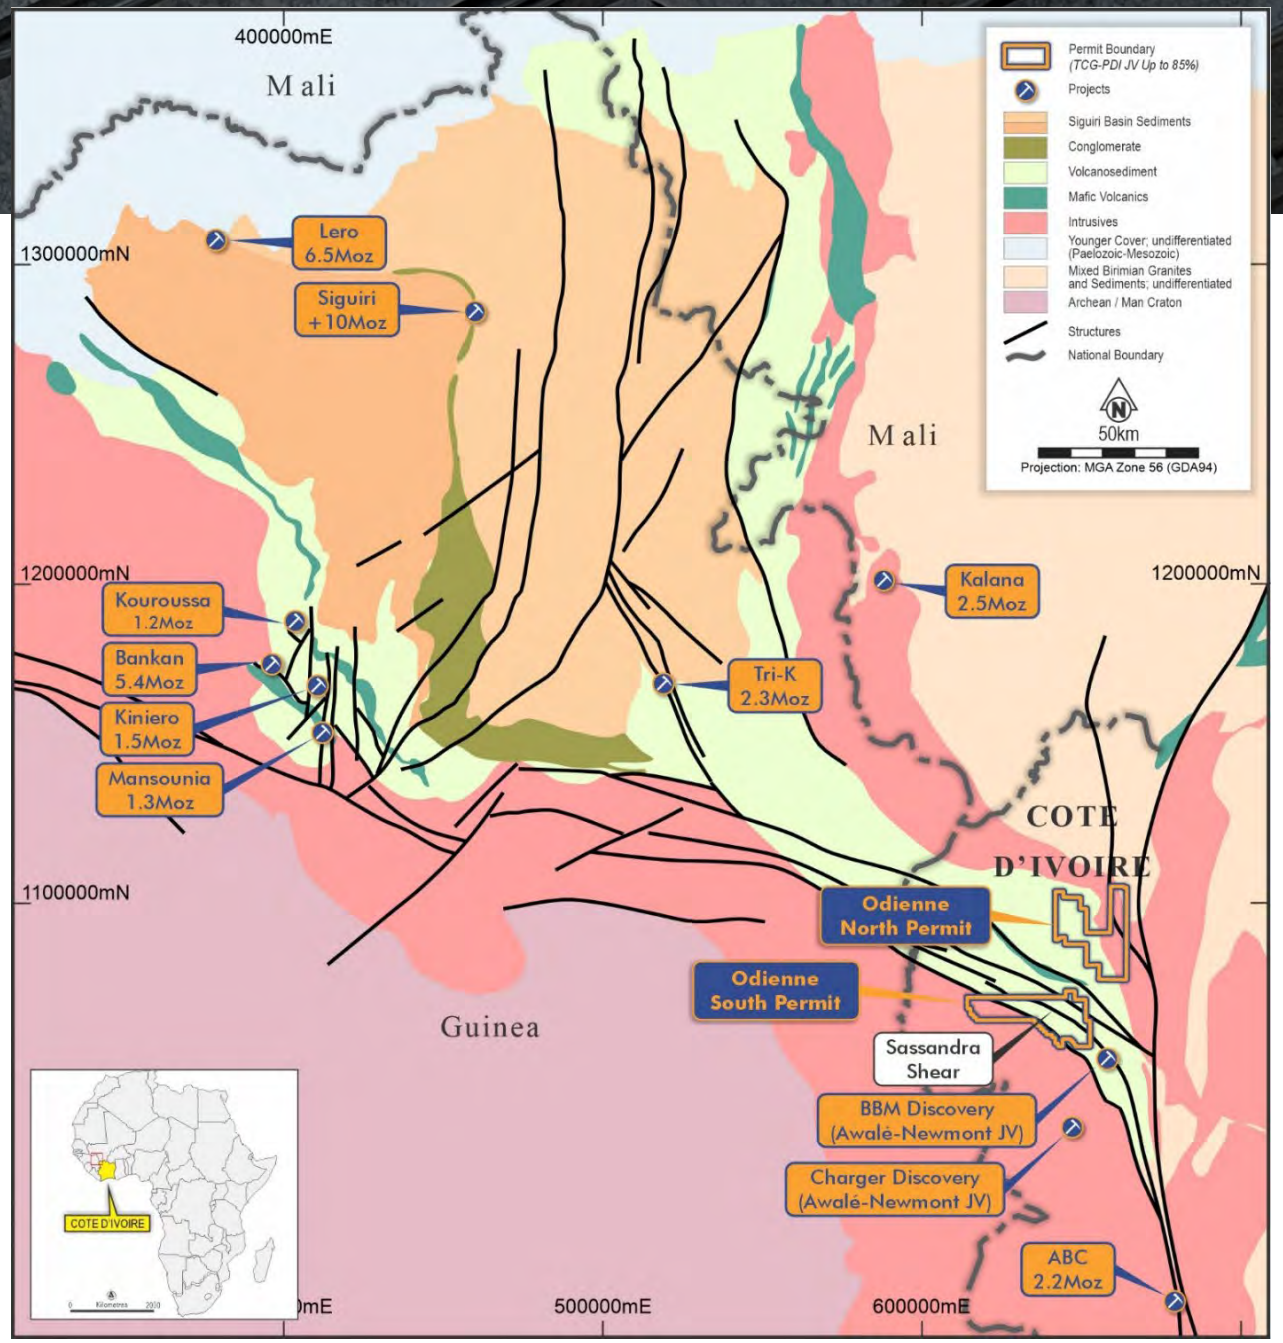

Odienné Gold Project

Key Land Position in an emerging gold district

- Project covers significant extent of high strain corridor (Sassandra Shear) along Archean domain margin
- Odienne South Permit covers >30km of gold anomalism in the prospective Sassandra fault corridor, host to several discrete gold targets on mineralized structures.
- **Same tectonic corridor hosting:**
  - PDI Gold's 5.4Moz Bankan gold discovery and 1.5Moz Kineiro Mine Note 10
  - Resolute's 2.2Moz ABC Project Note 11
  - Awalé-Newmont JV, 1.36Moz AuEq BBM project Note 12
- **Initial RC Drill Test completed in 2025,** returned **21m @ 1.21g/t gold** - open gold anomalies
- **2026, Ground Geophysics completed & 11,200m AC Drilling – Pending Assays**
- **Follow-up RC drilling to commence this quarter**

Refer to ASX release dated 26 March 2024 and 5 August 2025

personal use only

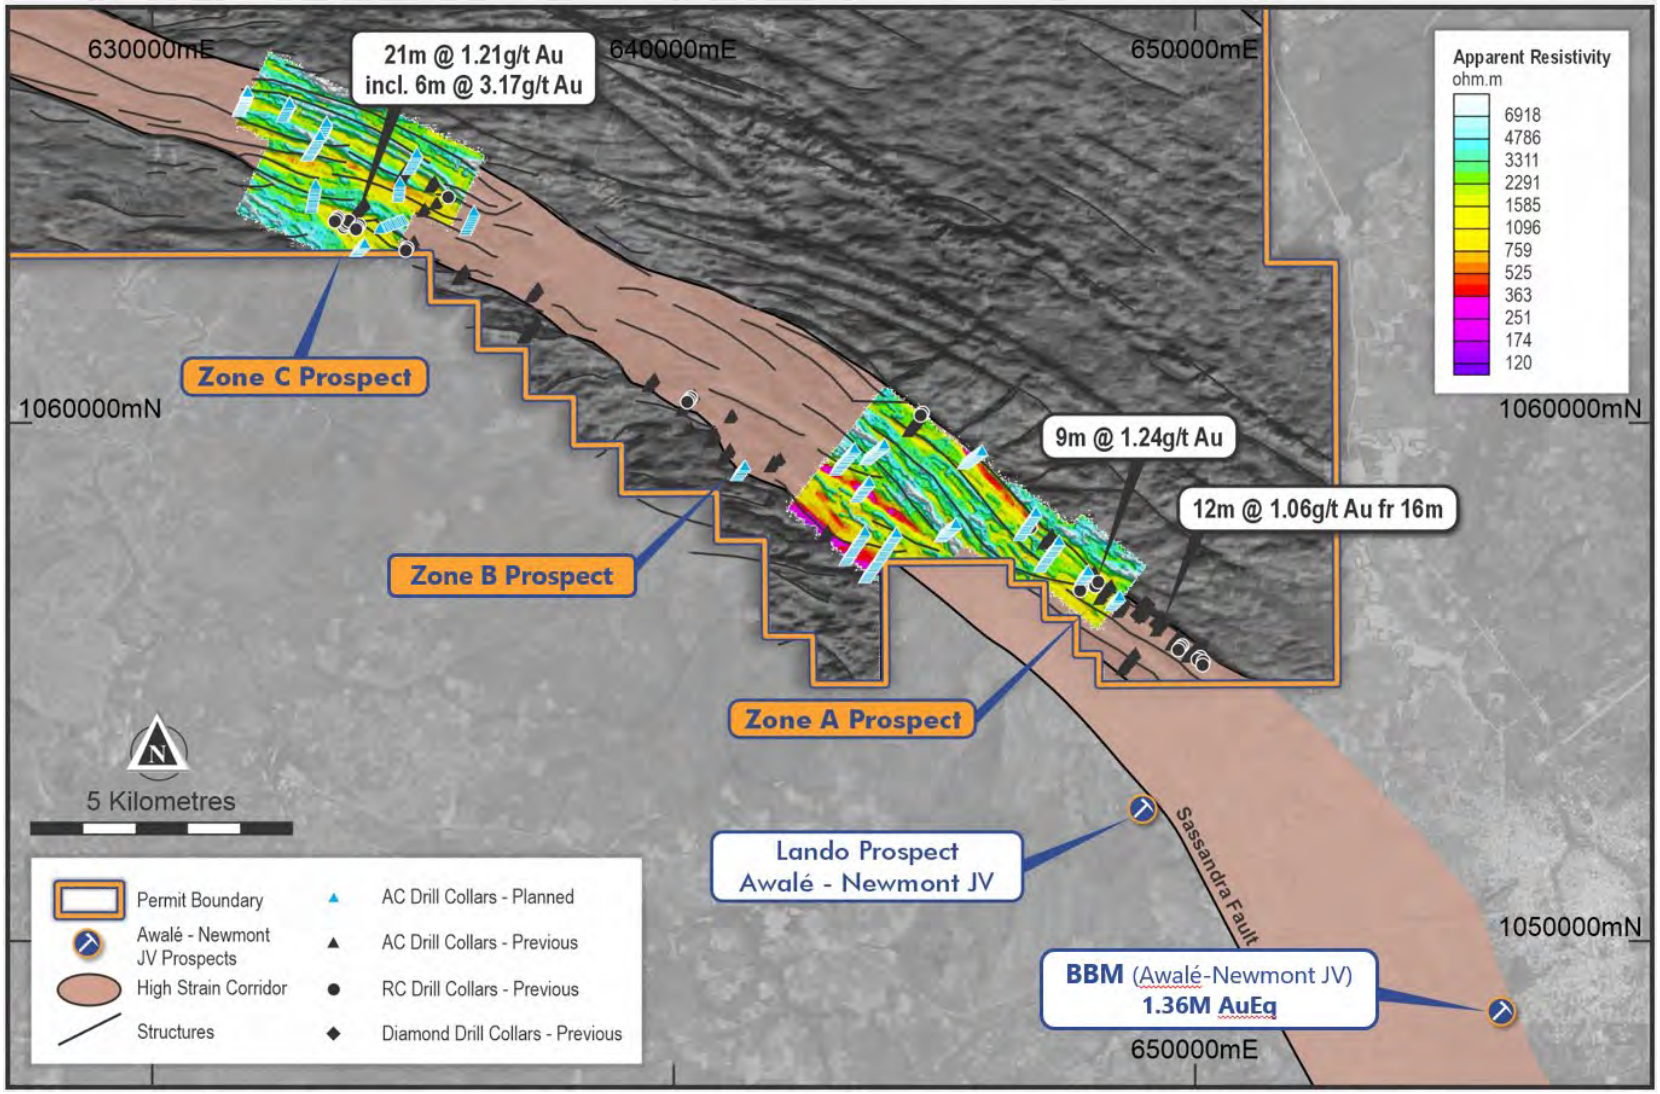

Odienné Gold Project

Air Core & first-pass RC Drilling Results Yield Extensive Mineralised Structural Targets

- First RC drilling completed mid-2025 comprised 3,794m in 32 drill holes including, **21m @ 1.21g/t gold**
- Multiple gold intercepts confirm and extend, extensive gold corridors at Zone A and Zone C targets

Ground geophysics (GAIP survey) completed early 2026

11,206m of Air Core Drilling completed in August 2026 – ASSAYS PENDING

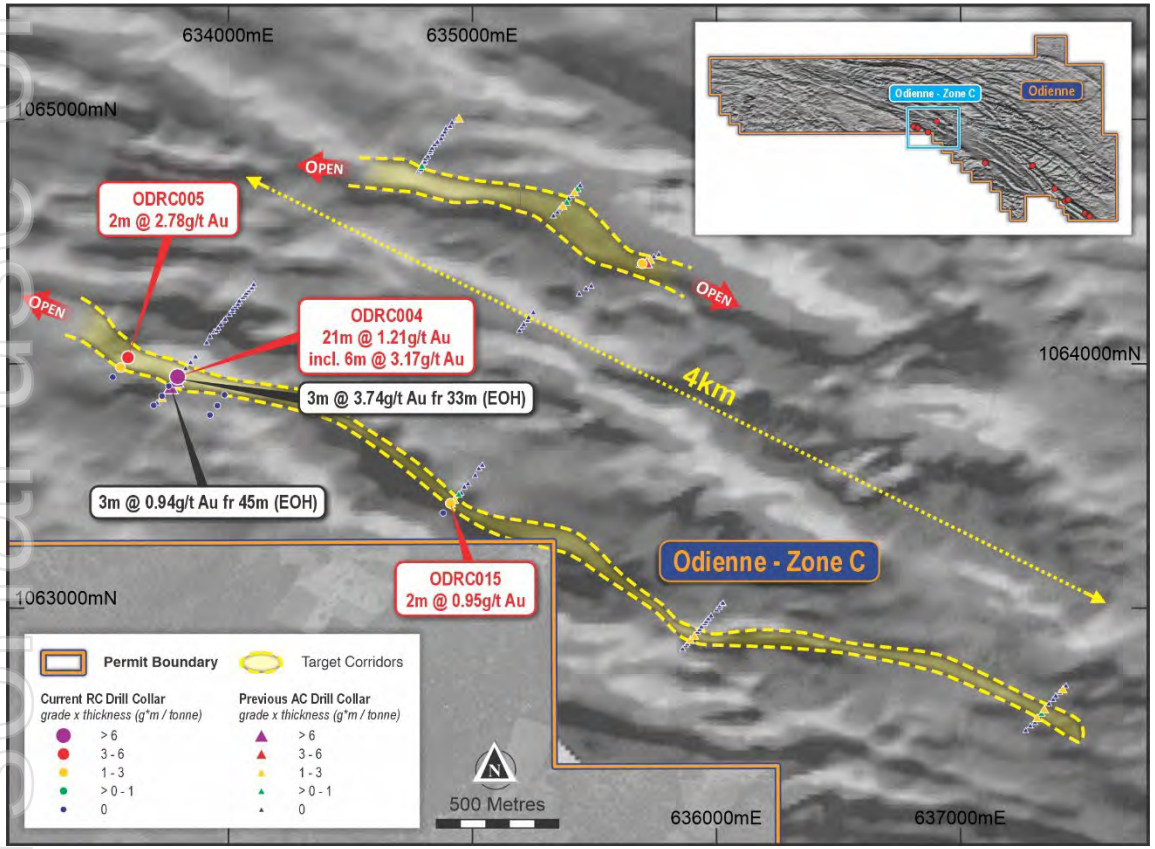

Refer to ASX: MPK releases dated 20 August 2024, 24 February & 5 August 2025, 2 June 2026 (Geophysics)

For personal use only

Odienné Gold Project – Air Core & RC Drilling Results

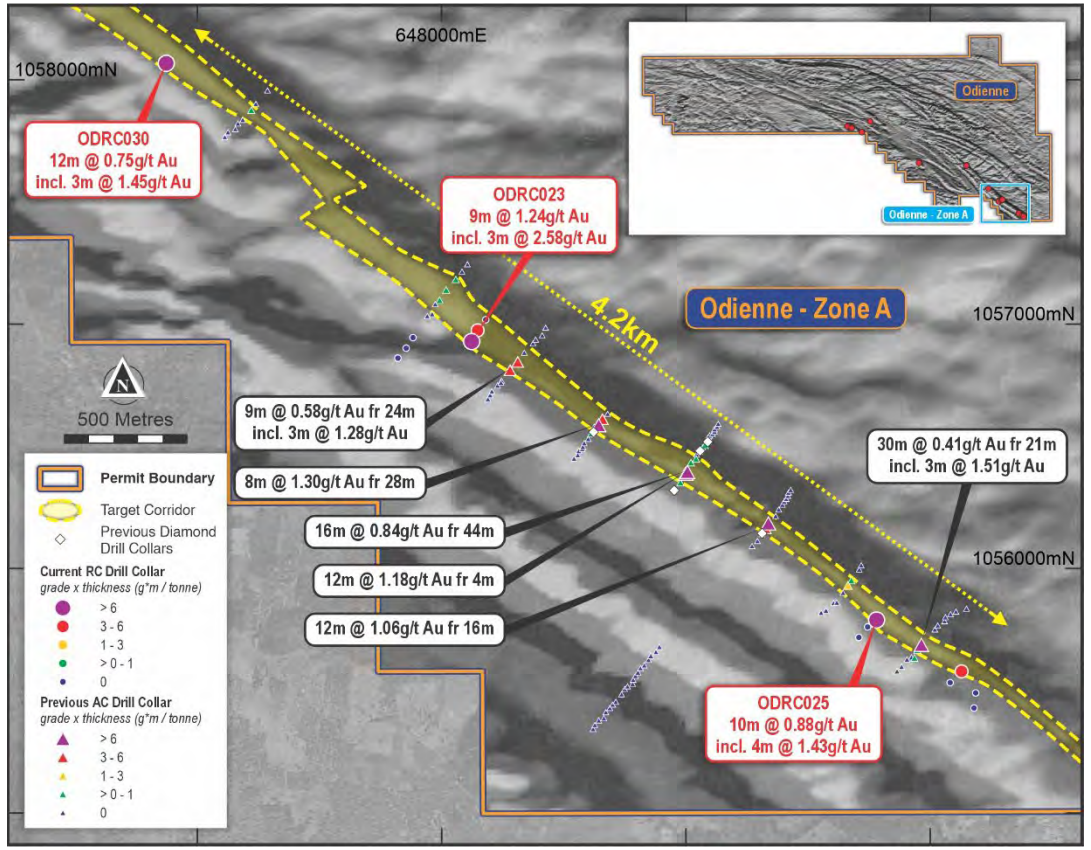

Zone C, >3.8km of gold anomalism, OPEN IN ALL DIRECTIONS

Multiple AC holes ending in gold mineralisation return a wider zone of gold mineralisation of **21m** @ **1.21g/t gold** in first-pass RC drilling

Zone A, >4km of gold anomalism, OPEN IN ALL DIRECTIONS

Undrilled target in magnetics ties into mineralised structure confirmed in reconnaissance RC and air core drilling.

Baga Gold Project

Baga Gold Project

Baga located ~25km west of the 5.2Moz Assafou (Endeavour Mining Note 13)

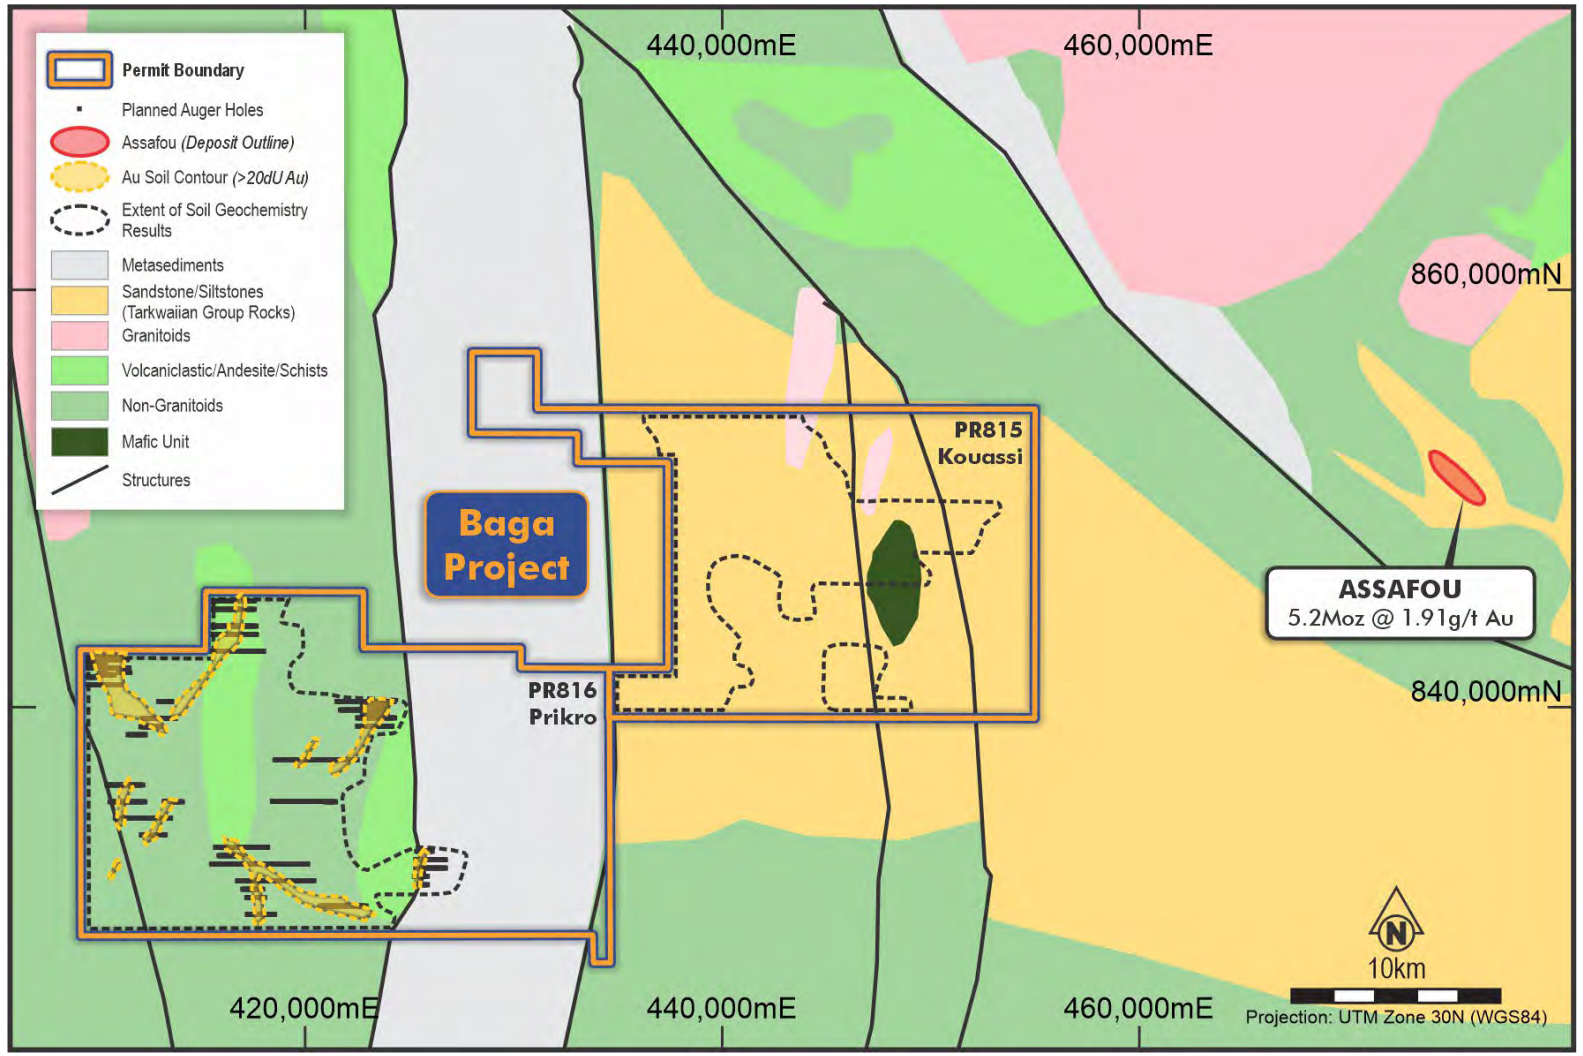

- 100% Owned, Early-Stage Exploration Project
- 644km2, two granted permits

First Systematic Modern Exploration

- Reconnaissance geology maps previously unmapped intrusions and identifies shear corridors coincident with alteration and sulfides
- 50 x 400m spaced soils at Prikro & 800m spaced soils at Kouassi complete
- Maiden Auger campaign at Prikro complete, **2,700 holes** totalling 14,800m - Assays Pending

Next Steps

- Infill Soils at Kouassi
- Follow-up trench & auger at Prikro, working towards drill ready targets in 2027

Refer to ASX: MPK release dated 1 July 2026

ersonal use only

2026 to 2028 Strategy & Planned Work

ersonal use only

Key Messages

- **Côte d'Ivoire a top tier Jurisdiction for mineral development in West Africa**
  - West Africa merging as the largest global gold producing region Note 14
  - Strong government and regional community support towards development
  - Many Peaks Development objectives tie in with Côte d'Ivoire stated objectives to increase gold production over 100 tonnes per annum by 2030 Note 3
- Exposure to **World Class West African Birimian Gold Terranes**, with Côte d'Ivoire's >34% portion of the highly gold endowed region significantly under-explored

Resource Category	Tonnes (Mt)	Gold Grade	Ounces
Measured	8.2	1.50g/t	398,000
Indicated	14.9	1.46g/t	700,000
Inferred	3.5	2.00g/t	225,000
Total	**26.7 Mt**	**1.54 g/t**	**1,323,000**

(at a lower cut-off of 0.38g/t Au)

Inaugural Ouarigue MRE[1] at Ferké Gold Project

- **High Confidence MRE, 83% Measure & Indicated Category**
- **Cost Effective Exploration**, with $11.25/oz Au (US$8/oz Au) discovery costs
- **Avg 2,320oz Au per vertical meter (**to 540m vertical depth)

- **Preliminary Metallurgy - 94% recoveries** indicate potential for low-cost leach recovery processing methods
- **PFS Study in progress**, advanced metallurgical testing, ESIA studies and geotechnical programmes underway
- **Underground Scoping Study initiated**
- **Planned Application for Mining Permit early 2027, targeting mining decision early 2028**
