

Stakk Extends Agreement with Chime Financial (NASDAQ: CHYM) Through December 2027

Sydney, Monday, 19 October 2026: Stakk Limited (ASX: SKK) confirms that its agreement with Chime Financial, Inc. (NASDAQ: CHYM), first announced on 29 October 2025, has been extended by mutual written agreement through to 31 December 2027.

Under the agreement, Stakk IQ, Inc. will continue to provide mobile image capture, image authentication, optical character recognition and document/data orchestration services supporting certain of Chime's deposit acceptance methods. Existing services and commercial terms remain unchanged.

Chime is a U.S. financial technology company offering mobile banking and financial services, including checking, savings and credit products. Chime is not a bank, but rather a financial technology company. Banking services are provided by The Bancorp Bank, N.A. or Stride Bank, N.A., Members FDIC. Chime reported 10.4 million active members as at 30 June 2026.

Chime is a material client of Stakk. Given the materiality of the agreement, Stakk is notifying the market of the extension pursuant to its continuous disclosure obligations under ASX Listing Rule 3.1.

This announcement has been authorised for release by the Board of Stakk Limited.

About Stakk

Stakk Limited (ASX: SKK) is a scaled, profitable and globally relevant AI-native Digital Trust infrastructure Group focused on combating fraud. Its integrated platform enables financial institutions, governments, law-enforcement agencies, healthcare providers, insurers, telecommunications companies, and other regulated enterprises to establish trust across the complete interaction – from identity verification and document authentication through to fraud prevention, transaction authorisation, and real-time contextual decisioning.

Stakk combines more than 30 years of proprietary AI-powered document intelligence with contextual Digital Personas, federated signal intelligence and pre-execution decisioning. The group serves more than 300 enterprise customers across the United States, Europe, the Middle East and Australia and processes more than 110 billion interactions annually, creating a continuously expanding intelligence asset that strengthens its ability to identify and respond to evolving AI-driven fraud threats.
