QUARTERLY REPORT

For the 3 months ended 30 September 2026

Prodigy Gold 100% Projects

Tanami North Gold Project:

- **Drilling of the co-funded diamond at the Hyperion Gold Deposit is underway targeting an IP geophysical anomaly around 300m southwest of the current Mineral Resource.**
- **The diamond hole forms part of the Northern Territory Government's Round 19 Geophysics and Drilling Collaborations Program with the Government granting co-funding of $112,152.**
- **The final report for the collaborative research project with CSIRO at Hyperion was successfully completed, integrating structural geology, mineralogy, geochemistry and three-dimensional geological modelling.**
- **PhotonAssay analysis of 27 select high-grade RC samples from 12 drill holes completed during the 2025 drilling programs at Hyperion and Tregony returned a strong correlation with the original Fire Assay results.**

Twin Bonanza Gold Project:

- **Approval processes for the potential re-start of the Old Pirate Gold Mine, based on the previously assessed EIS, are continuing.**
- **TOMRA XRT ore sorting testwork, successfully produced an ultra-high grade gold concentrate from Old Pirate mineralised material:**
  - **Single stage XRT sorting upgraded feed material from 322.3g/t Au to 2,647g/t Au**
  - **89% mass reduction achieved while retaining a high-grade product fraction.**

Prodigy Gold JV Projects

Tobruk & Monza Projects – Newmont Farm-in

- **Project wide reviews of the Tobruk and Monza Projects are in progress. Target reviews are designed to prioritise and focus the portfolio on the most prospective targets across the projects.**

Corporate

- **Post quarter-end the Company announced a fully underwritten Entitlement Offer to raise up to $7.92 million.**

For personal use only

Management Commentary

Commenting on progress made during the September 2026 quarter, Prodigy Gold Managing Director, Mark Edwards stated:

"It is an exciting period for Prodigy Gold with the recently announced fully underwritten rights issue currently underway to raise just under $8 million, with funds mainly deployed to fund future exploration and development work. This capital raise will allow the Company to continue exploration around the Tanami North Project, particularly the Hyperion Deposit and commence new works around the highly prospective Tanami West Project, which has not been actively explored since 2021. Exploration includes the first holes drilled at the Old Pirate Deposit since 2015, which will be an exciting step for the understanding of Prodigy Gold's highest grade Mineral Resource. The new capital will also finance on-going approval work for both the potential re-commencement of mining at Old Pirate as well as the progression of the Mineral Lease application located at the Hyperion Deposit.

During the quarter the Prodigy Gold team prepared for the drilling program which commenced at the beginning of October 2026. The drilling currently underway is part of the NT Governments Resourcing the Territory scheme, with co-funding of $112,152 approved under Round 19 of the Geophysics and Drilling Collaborations Program. The hole has been designed to test a deep geophysical response around 300m to the southwest of the Hyperion Mineral Resource and is an exciting step for the Company to better understand the underground potential of Prodigy Gold's flagship deposit.

The final report from the Australian Government's CSIRO research team on the structural geology, mineralogy, geochemistry and three-dimensional geological modelling on the strategically important Hyperion Gold Deposit was received. This study is now being used to target our on-going drilling campaigns for both, Mineral Resource growth and exploration around our known deposits.

Presentations held at two conferences outlined our achievements and plans moving forward to interested stakeholders. The first was the RIU Conference held in Melbourne in late August 2026 and the second, presenting to a local audience, was the Mining the Territory Conference held annually in Darwin in September 2026. Both conferences were well attended and provided an opportunity to meet and spread the Prodigy Gold story.

It will be an exciting end to the 2026 field season, with drilling currently underway and results expected towards the end of the year. The team remains busy progressing approval processes for both, mining and on-going exploration, with plans now in place to hit the ground running as early as practical in the 2027 field season."

September Quarter Exploration Summary

Tanami North Project – 100% PRX

The Tregony and Hyperion Gold Deposits are located within the 100% Prodigy Gold owned Tanami North Project and are situated on the Suplejack Shear Zone ("SSZ"), which hosts several known gold mineral resources (Figure 1) including:

- Hyperion Deposit – located approximately 20km northeast of Groundrush
- Tregony Deposit – located 26km to the north of the Hyperion Deposit
- Groundrush Deposit[1] – located 42km to the northeast of Central Tanami Project mill site
- Crusade Deposit[1] – located 22km to the northeast of Tregony

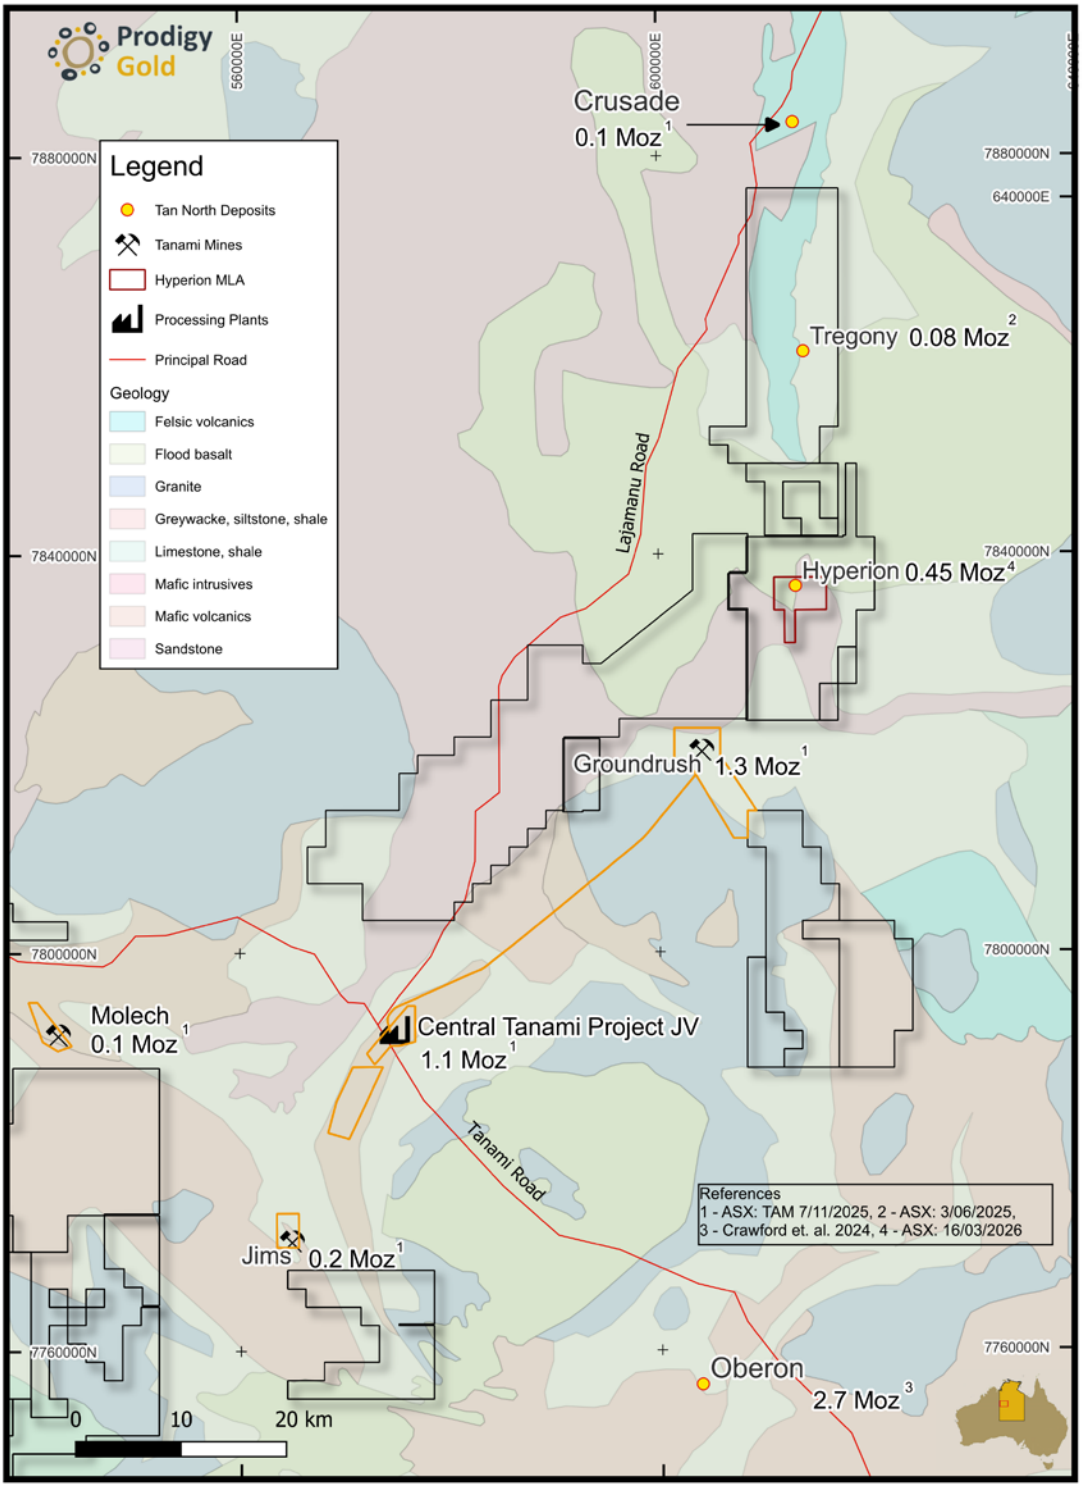

Figure 1 Tanami North Project area

Hyperion Deposit Update

Subsequent to the end of the quarter, Prodigy Gold provided an update on the Hyperion Project which included the commencement of diamond drilling at the Hyperion Gold Deposit[2]. The program is being undertaken under the Northern Territory Government's Round 19 Geophysics and Drilling Collaborations Program (brownfields diamond drilling)[3].

A single, approximately 600m deep HQ diamond hole is testing a discrete induced polarisation (IP) chargeability geophysical anomaly approximately 300m to the southwest of the current Hyperion

[2] ASX: 1 October 2026
[3] ASX: 10 June 2026

Mineral Resource and outside the footprint of existing drilling (Figure 2). The target is interpreted as a potential sulphide-rich zone that may represent an extension, parallel structure or down-plunge continuation of the broader Hyperion mineral system.

Oriented diamond core will provide important structural, lithological, alteration and mineralisation information and will directly test the relationship between the IP response, and any identified mineralisation.

The drilling builds on Prodigy Gold's 2023–2025 exploration programs and the recently completed CSIRO study, which refined the structural framework and recognised multiple stages of gold mineralisation at Hyperion.

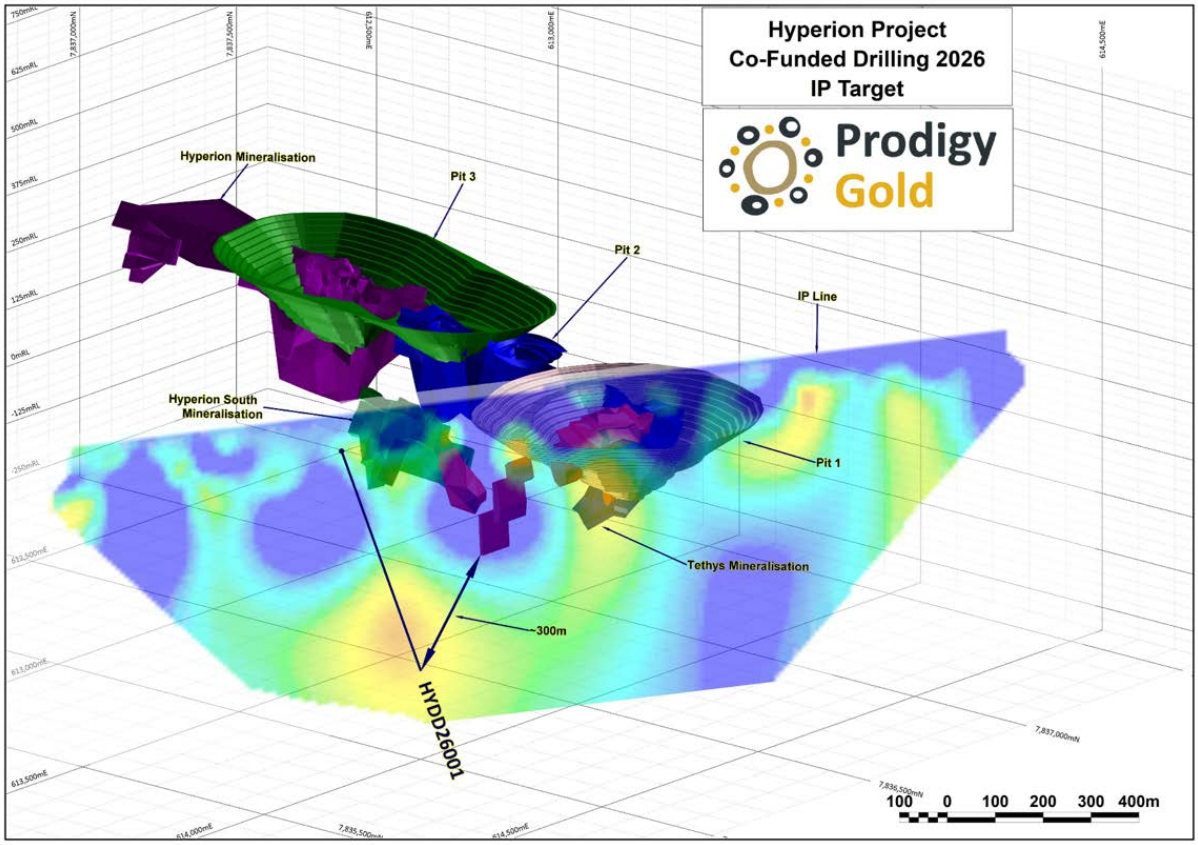

Figure 2 Location of HYDD26001 showing significant IP anomaly, Hyperion Mineralised Lodes and Proposed Pit Shells

CSIRO Study on Hyperion Deposit

During the reporting period Prodigy Gold announced the successful completion of the collaborative research project with CSIRO at Hyperion, integrating structural geology, mineralogy, geochemistry and three-dimensional geological modelling[4]. The CSIRO study identified two stages of gold mineralisation with distinct structural and sulphide associations (Figure 3).

Structural analysis identifies four extensional and three shear vein sets; steep east-southeast–west-northwest extensional veins that can host native gold. Bedding measurements indicate an upright antiform plunging 48° toward the south-southwest at Seuss. The north-south trending Seuss lode (dominantly Stage 2 mineralisation, overprinting Stage 1 mineralisation) is hosted within an approximately 47–53m thick fault breccia zone.

The refined multi-stage mineralisation model provides new targeting criteria for extensions of known mineralisation and prospective positions along the E-W trending Hyperion–Tethys, N-S trending Seuss and broader Suplejack structural corridors.

Tanami North Photon Assay Results

During the quarter the Company released results of PhotonAssay analysis of 27 select high-grade RC samples from 12 drill holes which were completed during the 2025 drilling programs at Hyperion and Tregony[5].

These results showed a strong correlation with the original Fire Assay results (Figure 4). Across the 27 samples, Fire Assay averaged 11.56g/t Au compared with 11.57g/t Au for PhotonAssay, a difference of approximately 0.1% on the combined grade totals.

At Tregony, three consecutive samples from TGRC25007 at a depth of 59–62m returned an average grade of 29.4g/t Au by Fire Assay and 28.9g/t Au by PhotonAssay. The highest individual result was 40.1g/t Au by Fire Assay and 41.6g/t Au by PhotonAssay.

The results continue to support the use of PhotonAssay as an important QAQC tool on higher-grade gold samples from Prodigy Gold's drilling programs.

Twin Bonanza Project – 100% PRX

The Old Pirate and Buccaneer Gold Deposits are located within the 100% Prodigy Gold owned Twin Bonanza Gold Project and are situated on two active Mineral Leases, ML33459 and ML29822, located around 40km to the south of the Tanami Road and 15km to the east of the WA border. The project is also approximately 80km from Black Cat Syndicates Coyote processing plant and around 96km from the Central Tanami Project JV processing plant. Prodigy Gold is currently working with the Northern Territory regulators to obtain approvals to potentially recommence mining at the Old Pirate Deposit.

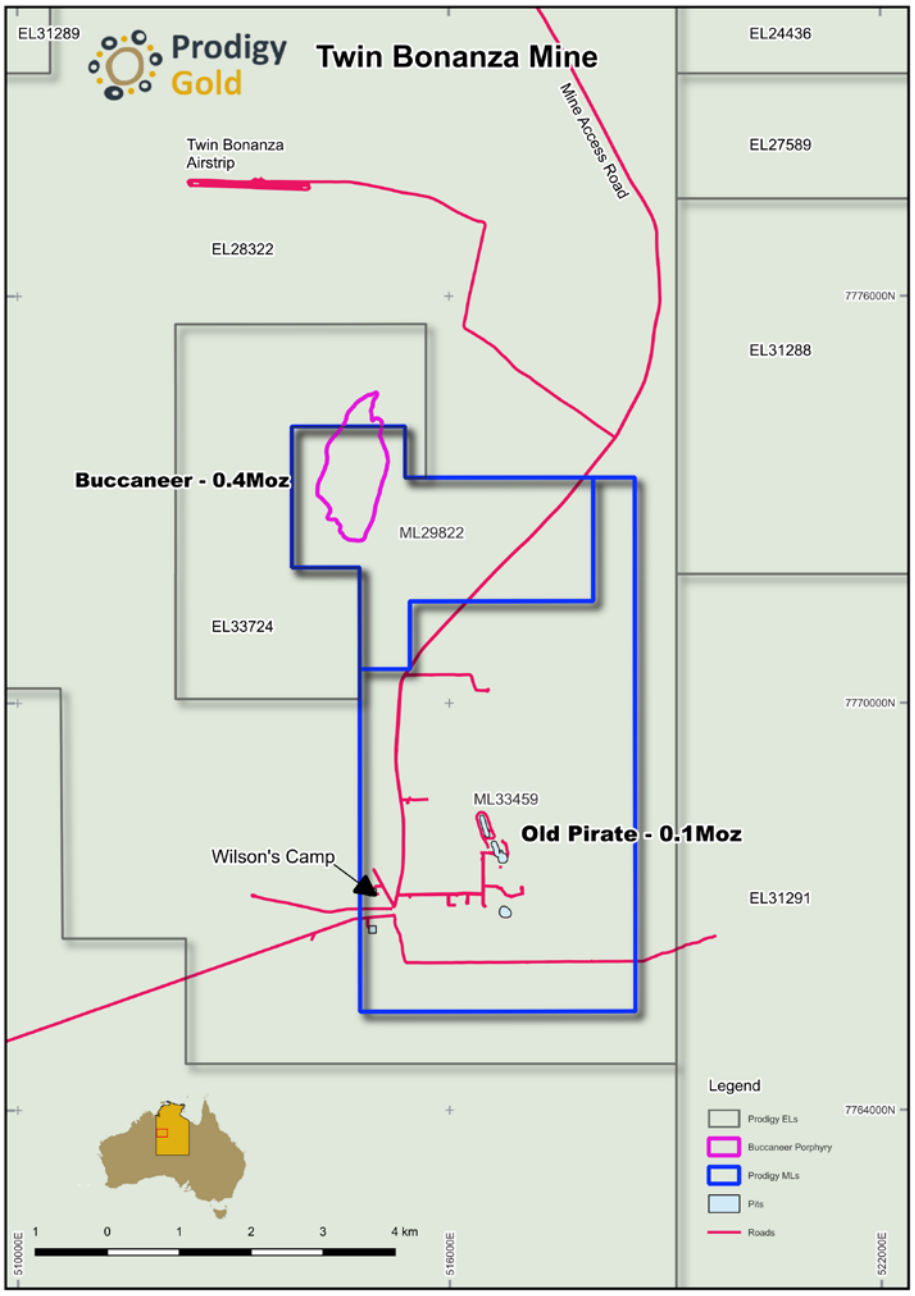

Figure 5 Twin Bonanza Project area

Twin Bonanza Project Update

During the quarter Prodigy Gold provided an update on the Twin Bonanza Project in the Northern Territory (Figure 5), which includes the Old Pirate and Buccaneer Mineral Resources[6]. This update detailed the approval process to potentially re-commence mining at the Old Pirate Project. It also outlined the highly encouraging ore sorting testwork results from Old Pirate samples sourced from the existing open pit.

[6] ASX: 2 July 2026

For personal use only

Several approvals are required before mining can re-commence at the Old Pirate Mine, many of which are either complete or in progress. Required approvals before mining could restart include:

- **Environmental Impact Statement (EIS)** – Assessment was completed by the Northern Territory Environment Protection Authority (NT EPA) in 2014.
- **Environment Protection and Biodiversity Conservation Act (1999) (EPBC) assessment** – This was re-referred to the Department of Climate Change, Energy, the Environment and Water (DCCEEW) who advised that no further action is required and the site can be managed under the conditions of the previous assessment.
- **Mining Agreement with Traditional Owners** – Fully operational agreement in place with an updated Sacred Site Clearance Certificate (SSCC) completed in 2025, which is valid for 5 years.
- **Mining Licence** – there is a current Deemed Mining Licence (DML-0909) in place for the care and maintenance of the project.
- **Environmental (Mining) Licence (EML) application for mining** – This is a new environmental mining licence required from the Department of Land Planning and Environment (DLPE) under the NT Environmental Protection Act (2019).
- **Water Extraction Licence** – Required to extract suitable quantities of water to support processing.
- **EML application for exploration** – An exploration EML has been approved by the DLPE for drilling at the Twin Bonanza Project.

Also included in the update was the ore-sorting testwork completed by TOMRA Sorting Mining (Tomra) using X-Ray Transmission (XRT) sensor-based ore sorting technology on selected mineralised and waste material sourced from the Old Pirate open pit.

The strongest result from the high-grade mineralised sample utilising XRT sorting upgraded a feed grade of 322.3g/t Au into a product fraction grading 2,647g/t Au. Importantly, this result was achieved with approximately 89% mass rejection, demonstrating the potential for ore sorting to selectively concentrate mineralised material while removing a proportion of relatively lower-grade waste material.

Prodigy Gold Mineral Resources

Prodigy Gold's 100% owned Mineral Resources total 23.8Mt at an average grade of 1.4g/t gold for 1.05Moz of gold (Table 1), with resources located at Tregony[7], Old Pirate[8] and Buccaneer[9], in addition to Hyperion[10]. The Hyperion Mineral Resource is one of two Prodigy Gold Deposits defined along the regional Suplejack Shear Zone ("SSZ"), which also hosts the Groundrush (Mineral Resource - 1.3Moz Au) and Crusade Deposits (Mineral Resource - 94Koz Au)[11] that form part of the neighbouring Central Tanami Project Joint Venture (CTPJV) held by MGX Resources Limited and Tanami Gold NL.

Notes:

Notes for Mineral Resource:

- *All Mineral Resources are reported in accordance with the 2012 JORC Code*
- *Mineral Resource Estimates are not precise calculations, being dependent on the interpretation of limited information on the location, shape and continuity of the occurrence and on the available sampling results. The quantities contained in the above table have been rounded to one significant figure to reflect the relative uncertainty of the estimate for tonnes and grade. Rounding may cause values in the table to appear to have errors.*
- *Competent Persons and Authors are noted as Prodigy Gold (Mark Edwards) for the Tregony, Hyperion and Buccaneer Mineral Resources and CSA Global for the Old Pirate Mineral Resources*
- *Tonnes are reported as dry metric tonnes*
- *The are no Ore Reserves reported for any of Prodigy Gold's projects*
- *All projects are owned 100% by Prodigy Gold*
- *Buccaneer Mineral Resources were determined using an optimised pit shell created in 2023 with these parameters;*
    - *Gold price of A$2,960/oz which represents a 120% factoring of the 3-year forecast of gold price based on data from* Consensus Economics Inc, 2023 *at US$1,832/oz and exchange rate of $0.74 dated June 2023.*
    - *Mining, processing and G&A costs of around $56/ore tonne mined*
    - *Recoveries used were 95.1% for oxide, 96.7% transitional and 84.6% for fresh based on metallurgical testwork completed by metallurgical consultants IMO Pty Ltd in 2023*
    - *Pit wall angles of 45º in oxide and 39º in fresh and transitional (from vertical) and are based on geotechnical work completed on the 2021 diamond drilling.*
- *Buccaneer Mineral Resources have been re-stated using the optimised pit shell as outlined above at a lower cut-off grade of 0.6g/t Au.*
- *Tregony Mineral Resources are determined to be within 100m of surface using a lower cut-off grade of 0.5g/t Au in oxide material and 0.6g/t Au in transitional and fresh material based on metallurgical recoveries of 95% in oxide and 90% in transitional and fresh material.*
- *Hyperion Mineral Resources are determined to be within 180m of surface using a lower cut-off grade of 0.5g/t Au based on metallurgical recoveries of 95% in oxide and transitional and 90% in fresh material based on metallurgical testwork completed by metallurgical consultants IMO Pty Ltd in 2025.*
- *Lower cut-off grades calculated for Tregony and the restated Buccaneer use a forecast exchange rate of $0.64, US gold price of $2,826/oz ($Aus4,395/oz) determined using the Consensus Economics March 2025 newsletter. Lower cut-off grades calculated for Hyperion use an exchange rate of $0.69, US gold price of $3,273/oz ($Aus4,743/oz) determined using the Consensus Economics February 2026 newsletter.*

Joint Venture Portfolio

Tobruk JV and Monza JV (Newmont)

Newmont Exploration Pty Ltd, a subsidiary of Newmont Corporation, (Newmont) has the right to earn up to 75% of Tobruk[12] and 85%[13] of Monza by sole funding exploration activities and delivering certain milestones (Figure 7).

On-ground works completed during the September 2026 Quarter were limited to the rehabilitation of the Officer Hill North drill program. The drilling was completed during the September 2025 Quarter. All other work undertaken on the two JV projects was limited to the continuation of the project evaluation and ranking work.

Tobruk

During the reporting period the on-ground activities were limited to the completion of rehabilitation for the Officer Hill North drill program which was drilled during the September 2025 reporting period. Other work completed during the reporting period was limited to project evaluation.

Monza

No field work was carried out during the reporting period. Work undertaken during the quarter included the continuation of the project-wide ranking and rating to seek to ensure that the deemed highest-priority potential targets are appropriately advanced and explored.

The project-wide rank-and-rate system was developed in the June-2026 Quarter and ranking of targets is ongoing. The prospect ranking and evaluation study is anticipated to be completed during the later part of 2026, with the outcomes expected to inform future exploration planning and target prioritisation

Lake Mackay JV (IGO and IGO/Castile)

Prodigy Gold manages three Joint Ventures (Figure 8) for the Lake Mackay Project[14]:

- Gold JV – 70% Prodigy Gold and 30% IGO
- Base Metal JV – 30% Prodigy Gold and 70% IGO
- Castile JV – Prodigy Gold 60%, IGO 26% and Castile 14%

No active exploration activities occurred during the September 2026 quarter.

Prodigy Gold is continuing to work with IGO, who has established a dataroom, to determine if there are parties interested in a joint venture or acquisition of the project. This process is still ongoing, and Prodigy Gold will continue to talk with potential partners / buyers to establish if there is any interest in the Lake Mackay Project. Prodigy Gold has no active plans for exploration at Lake Mackay during 2026.

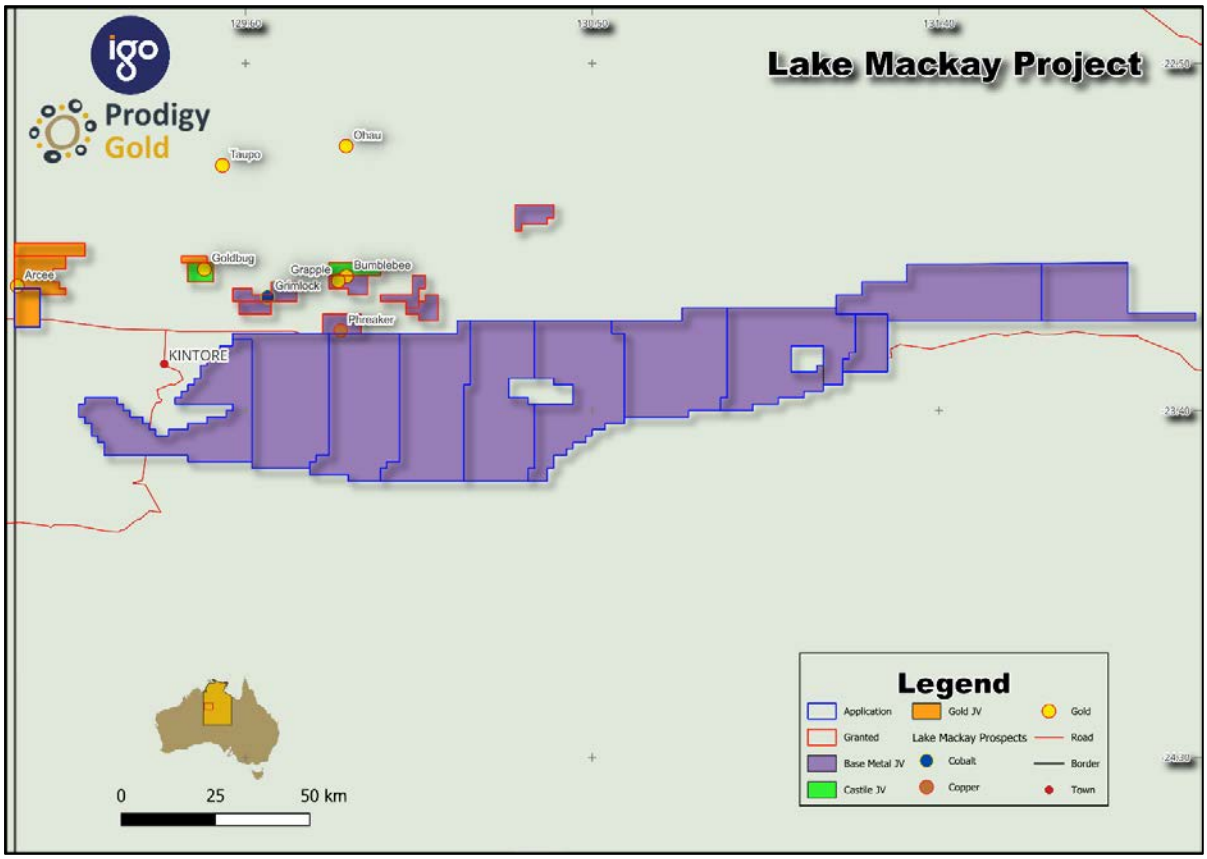

Figure 8 Lake Mackay JV tenements

Barrow Creek JV (Australasian Metals) - 10% PRX

No field work was completed on the Barrow Creek Project during the reporting period.

Environmental, Social and Governance

Hyperion Gold Project

The Prodigy Gold team has continued collecting baseline information for the Hyperion Project, which will be used in future Environmental Impact Studies (EIS) (Figure 9). The work includes baseline studies on flora, fauna, weeds and weather as well as collecting groundwater and dust samples from the project area. This process has continued through the current dry season with quarterly inspections completed during the year.

[14] ASX: 18 May 2022

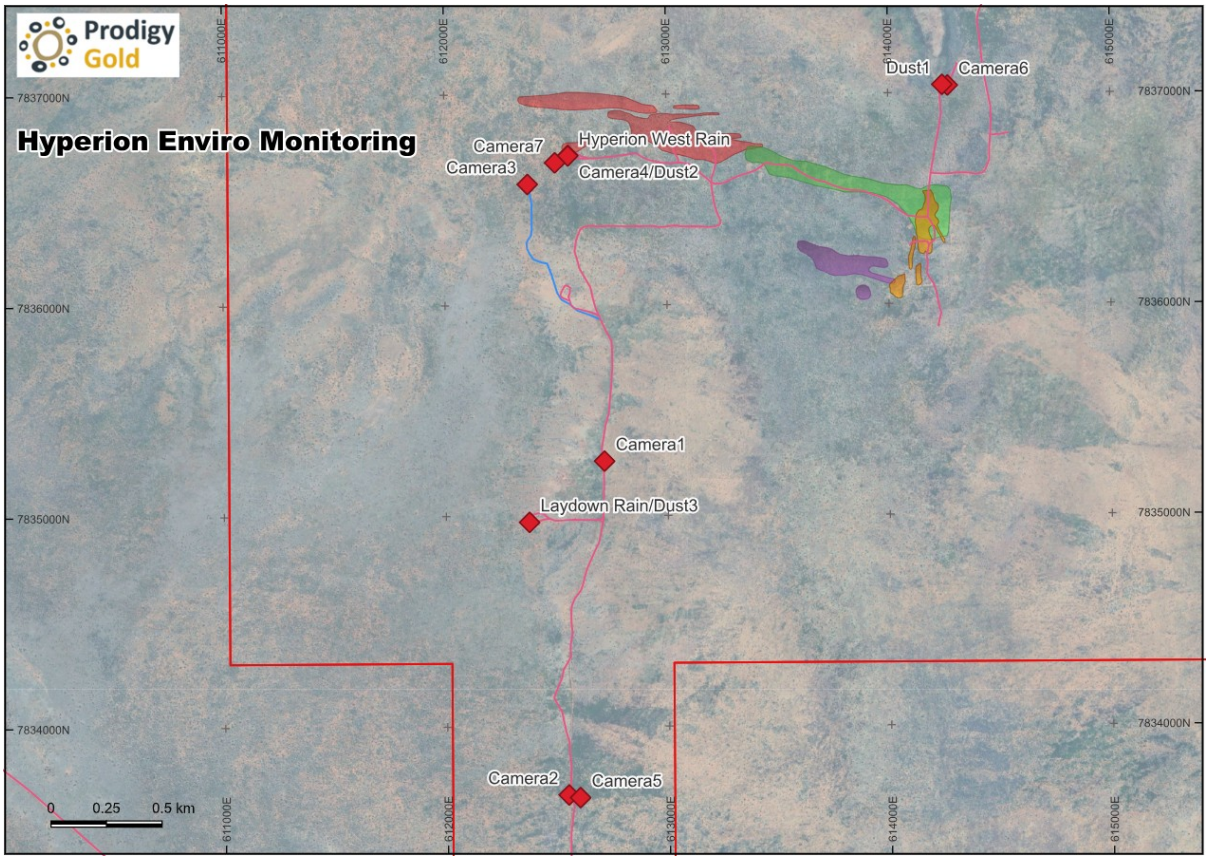

Figure 9 Location of Hyperion Project monitoring sites

No significant environmental incidents have been reported for this period.

Potential Transaction with Tanami Gold NL

Prodigy Gold referred previously to preliminary discussions with Tanami Gold NL (Tanami Gold) (ASX:TAM) in relation to the Hyperion Gold Project[15]. No transaction has been agreed to and, due to other priorities for both parties, discussions have been put on hold for the time being.

Capital Structure

As at 30 September 2026 the Company had 337,093,373 fully paid ordinary shares and 48,007,338 unlisted options on issue.

Substantial holders as at 30 September 2026 were:

Shareholders	Number of Ordinary Shares	% Held of Issued Ordinary Capital
APAC Resources Limited & Allied Properties Investments (1) Company Limited	103,360,024	30.66
Jetosea Pty Ltd	67,185,692	19.93
Plutus Prospecting Pty Ltd	67,081,534	19.90

[15] ASX: 1 October 2026

Capital Raising

Subsequent to quarter-end the Company announced the commencement of a fully underwritten non-renounceable entitlement offer to raise up to $7.92 million (before expenses) (Entitlement Offer)[16].

Eligible Shareholders are offered the opportunity to subscribe for one (1) new fully paid ordinary share in Prodigy Gold (New Share) for every two (2) fully paid ordinary shares in Prodigy Gold held as at 7:00pm (Sydney time) on Tuesday, 13 October 2026 (Record Date), with no minimum subscription.

Eligible Shareholders are also entitled to subscribe for any New Shares not subscribed for by other Eligible Shareholders under the Entitlement Offer (Shareholder Shortfall Offer).

The Company has received binding commitment and underwriting deeds from its largest shareholders, APAC Resources Limited (APAC), Plutus Prospecting Pty Ltd (Plutus) and Jetosea Pty Ltd (Jetosea) to subscribe for their full entitlement under the Entitlement Offer and any additional New Shares not subscribed for by other Eligible Shareholders under the Entitlement Offer or the Shareholder Shortfall Offer.

The closing date of the Entitlement Offer is currently scheduled for 28 October 2026.

Statutory Reporting

On 20 August 2026, the Company released the 2026 Annual Report, 2026 Annual Mineral Resource Statement, 2026 Environment Social Governance Report and 2026 Corporate Governance Statement.

The Company's annual general meeting will be held at 1.00pm (ACST) on 26 November 2026 in Darwin.

Cash Position

As at 30 September, Prodigy Gold had A$1.95 Million in available cash and has no debt.

Payments reported in the Appendix 5B under section 6.1 consist of remuneration paid to executive and non-executive directors of the Company, including PAYG and superannuation, on a cash basis.

Authorised for release by a resolution of Prodigy Gold's Board of Directors.

About Prodigy Gold NL

Prodigy Gold has a unique blend of greenfield and brownfield exploration projects and prospects in the proven multi-million-ounce Tanami Gold Province hosting significant deposits such as Newmont Australia's Tanami operation and its Oberon Deposit. Prodigy Gold is currently focused on the development of its Tanami North and Twin Bonanza Projects with further work required to fully understand the potential for mining of its over 1 million ounces of Mineral Resources.

The key strategic plan for Prodigy Gold over the coming 5 years includes:

- Remaining focused on mine development and gold exploration in the Tanami Region of the Northern Territory;
- Completing mining studies on the existing Tanami North and Twin Bonanza Projects to better understand the development potential of Prodigy Gold's deposits;
- Reviewing opportunities to develop existing and future deposits with potential partners with the aim of generating cash-flow to continue exploration and development activities;
- Continue to grow the current Mineral Resource base while assessing and developing new projects around the Company's significant tenement package; and
- Work with our Joint Venture partners to continue to advance their projects in and around our active sites.

Competent Person's Statement for the Mineral Resources

The information in this announcement relating to Mineral Resources from Buccaneer, Tregony, Hyperion and Old Pirate is based on information reviewed and checked by Mr. Mark Edwards. Mr. Edwards is a Fellow of the Australasian Institute of Mining and Metallurgy (FAusIMM – Membership number 220787) and Member of the Australian Institute of Geoscientists (MAIG – Membership number 3655) and has sufficient experience relevant to the style of mineralisation and type of deposits under consideration and to the activity he is undertaking to qualify as a Competent Person as defined in the 2012 Edition of the Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves (the "2012 JORC Code"). Mr. Edwards is a full-time employee of the Company in the position of Managing Director and consents to the inclusion of the Mineral Resources in the form and context in which they appear. Mr. Edwards also visited each project site during September-2024, October 2025 and May 2026.

The Company confirms that it is not aware of any new information or data that materially affects the Mineral Resources as reported on the 16 March 2026, 3 June 2025, 11 August 2023 and 19 August 2016, and the assumptions and technical parameters underpinning the estimates in the 16 March 2026, 3 June 2025, 11 August 2023 and 19 August 2016 releases continue to apply and have not materially changed.

The information in this report that relates to Mineral Resources for Hyperion was previously released to the ASX on the 16 March 2026 – Hyperion Gold Deposit Mineral Resource Update. This document can be found at www.asx.com.au (Stock Code: PRX) and at www.prodigygold.com.au. The 16 March 2026 release fairly represents information compiled by Mr. Shaun Searle who is a Member of the Australasian Institute of Geoscientists and reviewed by Mr. Mark Edwards who is a Fellow of the Australasian Institute of Mining and Metallurgy and Member of the Australian Institute of Geoscientists. Mr. Edwards is the Mineral Resource Competent Person for this estimate. At this time of publication Mr. Edwards was a full-time employee of Prodigy Gold and Mr. Searle is a full-time employee of Ashmore Advisory Pty Ltd. Mr. Edwards and Mr. Searle had previously provided written consent for the 16 March 2026 release.

The information in this report that relates to Mineral Resources for Tregony was previously released to the ASX on the 3 June 2025 – Updated Mineral Resource for Tregony Gold Deposit. This document can be found at www.asx.com.au (Stock Code: PRX) and at www.prodigygold.com.au. The 3 June 2025 release fairly represents data, geological modelling, grade estimation and Mineral Resource estimates completed by Mr. Mark Edwards who is a Fellow of the Australasian Institute of Mining and Metallurgy and Member of the Australian Institute of Geoscientists. At the time of the 3 June 2025 release Mr. Edwards was a full-time employee of Prodigy Gold. Mr. Edwards has previously provided written consent for the 3 June 2025 release.

The information in this report that relates to the Mineral Resources for Buccaneer was previously released to the ASX on the 11 August 2023 –Buccaneer Mineral Resource Update. This document can be found at www.asx.com.au (Stock Code: PRX) and at www.prodigygold.com.au. It fairly represents information compiled by Mr. Shaun Searle who is a Member of the Australasian Institute of Geoscientists and reviewed by Mr. Mark Edwards who is a Fellow of the Australasian Institute of Mining and Metallurgy and Member of the Australian Institute of Geoscientists. Mr. Edwards is the Mineral Resource Competent Person for this estimate. At this time of publication Mr. Edwards was a full-time employee of Prodigy Gold and Mr. Searle was a full-time employee of Ashmore Advisory Pty Ltd. Mr. Edwards and Mr. Searle had previously provided written consent for the 11 August 2023 release.

The information in this report that relates to Mineral Resources for Old Pirate was previously released to the ASX on the 19 August 2016 – Old Pirate Updated Mineral Resource Estimate. This document can be found at www.asx.com.au (Stock Code: PRX) and at www.prodigygold.com.au. The 19 August 2016 release fairly represents information reviewed by Mr. David Williams, a Competent Person who is a Member of the Australasian Institute of Mining and Metallurgy. At the time of the 19 August 2016 release Mr. Williams was a full-time employee of CSA Global Pty Ltd. Mr. Williams has previously provided written consent for the 19 August 2016 release.

Competent Person's Statement for Exploration Results

The information in this announcement relating to the Tregony and Hyperion Deposits, and exploration results from the Tanami North and Twin Bonanza Project, such as results from the Tregony, Hyperion, Buccaneer and Old Pirate Deposits, are based on information reviewed and checked by Mr Mark Edwards, FAusIMM, MAIG. Mr Edwards is a Fellow of the Australian Institute of Mining and Metallurgy (AusIMM) and a Member of The Australasian Institute of Geoscientists (AIG) and has sufficient experience relevant to the style of mineralisation and type of deposit under consideration and to the activity he is undertaking to qualify as a Competent Person as defined in the 2012 Edition of the Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves (The "JORC Code"). Mr Edwards is a full-time employee of the Company in the position of

Managing Director and consents to the inclusion of the Exploration Results in the form and context in which they appear.

Past Exploration results reported in this announcement have been previously prepared and disclosed by Prodigy Gold in accordance with JORC 2012, these releases can be found and reviewed on the Company website, (www.prodigygold.com.au). The Company confirms that it is not aware of any new information or data that materially affects the information included in these market announcements. The Company confirms that the form and content in which the Competent Person's findings are presented here have not been materially modified from the original market announcements. Refer to www.prodigygold.com.au for details on past exploration results.

The information in this report that relates to prior exploration results is extracted from the following ASX announcements:

For personal use only

4.	**Net increase / (decrease) in cash and cash equivalents for the period**		
4.1	Cash and cash equivalents at beginning of period	3,061	3,061
4.2	Net cash from / (used in) operating activities (item 1.9 above)	(1,027)	(1,027)
4.3	Net cash from / (used in) investing activities (item 2.6 above)	(80)	(80)
4.4	Net cash from / (used in) financing activities (item 3.10 above)	-	-
4.5	Effect of movement in exchange rates on cash held		
4.6	**Cash and cash equivalents at end of period**	**1,954**	**1,954**

5.	**Reconciliation of cash and cash equivalents** at the end of the quarter (as shown in the consolidated statement of cash flows) to the related items in the accounts	**Current quarter $A'000**	**Previous quarter $A'000**
5.1	Bank balances	1,954	2,061
5.2	Call deposits	-	1,000
5.3	Bank overdrafts		
5.4	Other (provide details)		
5.5	**Cash and cash equivalents at end of quarter (should equal item 4.6 above)**	**1,954**	**3,061**

6.	**Payments to related parties of the entity and their associates**	**Current quarter $A'000**
6.1	Aggregate amount of payments to related parties and their associates included in item 1 Director fees and salaries (incl. superannuation) on a cash basis	126
6.2	Aggregate amount of payments to related parties and their associates included in item 2	

Note: if any amounts are shown in items 6.1 or 6.2, your quarterly activity report must include a description of, and an explanation for, such payments.

7.	**Financing facilities** *Note: the term "facility' includes all forms of financing arrangements available to the entity.* *Add notes as necessary for an understanding of the sources of finance available to the entity.*	**Total facility amount at quarter end $A'000**	**Amount drawn at quarter end $A'000**
7.1	Loan facilities	NIL	NIL
7.2	Credit standby arrangements		
7.3	Other (Guarantee Facility)[1]	2,346	2,346
7.4	**Total financing facilities**	2,346	2,346

7.5	**Unused financing facilities available at quarter end**	-
7.6	Include in the box below a description of each facility above, including the lender, interest rate, maturity date and whether it is secured or unsecured. If any additional financing facilities have been entered into or are proposed to be entered into after quarter end, include a note providing details of those facilities as well.	

[1]Prodigy Gold has guarantee facilities with the ANZ and CBA which do not require any security to be granted over the Company's assets. No interest is payable for the facilities as the funds drawn are fully cash-backed. Related fees are part of expenditure under point 1.5.

8.	**Estimated cash available for future operating activities**	**$A'000**
8.1	Net cash from / (used in) operating activities (item 1.9)	(1,027)
8.2	(Payments for exploration & evaluation classified as investing activities) (item 2.1(d))	
8.3	Total relevant outgoings (item 8.1 + item 8.2)	(1,027)
8.4	Cash and cash equivalents at quarter end (item 4.6)	1,954
8.5	Unused finance facilities available at quarter end (item 7.5)	
8.6	Total available funding (item 8.4 + item 8.5)	1,954
8.7	**Estimated quarters of funding available (item 8.6 divided by item 8.3)**	1.9

Note: if the entity has reported positive relevant outgoings (ie a net cash inflow) in item 8.3, answer item 8.7 as "N/A". Otherwise, a figure for the estimated quarters of funding available must be included in item 8.7.

8.8 If item 8.7 is less than 2 quarters, please provide answers to the following questions:

8.8.1 Does the entity expect that it will continue to have the current level of net operating cash flows for the time being and, if not, why not?

Answer: yes

8.8.2 Has the entity taken any steps, or does it propose to take any steps, to raise further cash to fund its operations and, if so, what are those steps and how likely does it believe that they will be successful?

Answer: The Company is currently undertaking a fully underwritten non-renounceable entitlement offer to raise up to $7.92 million before expenses.

8.8.3 Does the entity expect to be able to continue its operations and to meet its business objectives and, if so, on what basis?

Answer: Yes based on the expected receipt of the entitlement offer funds

Note: where item 8.7 is less than 2 quarters, all of questions 8.8.1, 8.8.2 and 8.8.3 above must be answered.

Compliance statement

1 This statement has been prepared in accordance with accounting standards and policies which comply with Listing Rule 19.11A.

2 This statement gives a true and fair view of the matters disclosed.

Date: 27 October 2026

Authorised by: The Board of Directors
(Name of body or officer authorising release – see note 4)

Notes

1. This quarterly cash flow report and the accompanying activity report provide a basis for informing the market about the entity's activities for the past quarter, how they have been financed and the effect this has had on its cash position. An entity that wishes to disclose additional information over and above the minimum required under the Listing Rules is encouraged to do so.

2. If this quarterly cash flow report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, *AASB 6: Exploration for and Evaluation of Mineral Resources* and *AASB 107: Statement of Cash Flows* apply to this report. If this quarterly cash flow report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standards apply to this report.

3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.

4. If this report has been authorised for release to the market by your board of directors, you can insert here: "By the board". If it has been authorised for release to the market by a committee of your board of directors, you can insert here: "By the [*name of board committee – eg Audit and Risk Committee*]". If it has been authorised for release to the market by a disclosure committee, you can insert here: "By the Disclosure Committee".

5. If this report has been authorised for release to the market by your board of directors and you wish to hold yourself out as complying with recommendation 4.2 of the ASX Corporate Governance Council's *Corporate Governance Principles and Recommendations*, the board should have received a declaration from its CEO and CFO that, in their opinion, the financial records of the entity have been properly maintained, that this report complies with the appropriate accounting standards and gives a true and fair view of the cash flows of the entity, and that their opinion has been formed on the basis of a sound system of risk management and internal control which is operating effectively.
