4.	**Net increase / (decrease) in cash and cash equivalents for the period**	**3,562**	**3,562**
4.1	Cash and cash equivalents at beginning of period	6,668	6,668
4.2	Net cash from / (used in) operating activities (item 1.9 above)	(3,212)	(3,212)
4.3	Net cash from / (used in) investing activities (item 2.6 above)	(1,020)	(1,020)
4.4	Net cash from / (used in) financing activities (item 3.10 above)	7,794	7,794

Consolidated statement of cash flows		**Current quarter $A'000**	**Year to date (3 months) $A'000**
4.5	Effect of movement in exchange rates on cash held	(101)	(101)
4.6	**Cash and cash equivalents at end of period**	**10,129**	**10,129**

5.	**Reconciliation of cash and cash equivalents** at the end of the quarter (as shown in the consolidated statement of cash flows) to the related items in the accounts	**Current quarter $A'000**	**Previous quarter $A'000**
5.1	Bank balances	10,129	6,668
5.2	Call deposits		
5.3	Bank overdrafts		
5.4	Other (provide details)		
5.5	**Cash and cash equivalents at end of quarter (should equal item 4.6 above)**	**10,129**	**6,668**

6.	**Payments to related parties of the entity and their associates**	**Current quarter $A'000**
6.1	Aggregate amount of payments to related parties and their associates included in item 1	530
6.2	Aggregate amount of payments to related parties and their associates included in item 2	

Note: if any amounts are shown in items 6.1 or 6.2, your quarterly activity report must include a description of, and an explanation for, such payments.

For personal use only

7.	**Financing facilities** *Note: the term "facility' includes all forms of financing arrangements available to the entity.* *Add notes as necessary for an understanding of the sources of finance available to the entity.*	**Total facility amount at quarter end $A'000**	**Amount drawn at quarter end $A'000**
7.1	Loan facilities		
7.2	Credit standby arrangements		
7.3	Other (please specify)	18,890	
7.4	**Total financing facilities**	18,890	

7.5	**Unused financing facilities available at quarter end**	18,890

7.6 Include in the box below a description of each facility above, including the lender, interest rate, maturity date and whether it is secured or unsecured. If any additional financing facilities have been entered into or are proposed to be entered into after quarter end, include a note providing details of those facilities as well.

The Company entered into a Controlled Placement Agreement (also referred to as an At-The-Market ("ATM") facility) ("the Agreement") in August 2018 with Acuity Capital Investment Management Pty Ltd <Acuity Capital Holdings A/C> ("Acuity Capital"), which was later extended to 31 January 2023 and has been further extended to 31 January 2031. As at 30 September 2026, the Company has utilised the facility to raise a total of $60.10 million and the remaining notional amount under the ATM is $189.90 million (the "Maximum Option Size"). However, the Maximum Option Size cannot be exercised in full if it requires the Company to issue more than the Maximum Option Shares. Maximum Option Shares is such number of the Company's shares as are permitted to be issued: (i) without approval of the Company's shareholders under Listing Rule 7.1 and 7.1A from time to time (i.e. the Company's placement capacity); or (ii) where the Company has received shareholder approval at a meeting of its shareholders to issue in excess of that allowable placement capacity under Listing Rule 7.1 and 7.1A, the number of shares allowable in accordance with the approval obtained at that meeting.

The Company has determined that the total unused amount available under the Agreement at 30 September 2026 is approximately $18.9 million as follows. Standby equity capital available under the Agreement without issuing further shares to Acuity of approximately $3.6 million based on the shares held as collateral by Acuity pursuant to the terms of the Agreement, at a prevailing share price on 30 September 2026 of $0.041. The maximum standby equity capital available under the Agreement without requirement of shareholder approval is approximately $15.3 million based on the prevailing share price of $0.041 on 30 September 2026. There is no guarantee that the Company will be able to execute a utilisation under the Agreement, which is subject to, for example, market conditions and the prevailing share price. There are equally no requirements on the Company to utilise the Agreement at any time and it may terminate the Agreement at any time, without cost or penalty.

For personal use only

8.	Estimated cash available for future operating activities	$A'000
8.1	Net cash from / (used in) operating activities (item 1.9)	(3,212)
8.2	(Payments for exploration & evaluation classified as investing activities) (item 2.1(d))	(1,094)
8.3	Total relevant outgoings (item 8.1 + item 8.2)	(4,306)
8.4	Cash and cash equivalents at quarter end (item 4.6)	10,129
8.5	Unused finance facilities available at quarter end (item 7.5)	18,890
8.6	Total available funding (item 8.4 + item 8.5)	29,019
8.7	**Estimated quarters of funding available (item 8.6 divided by item 8.3)**	6.74

Note: if the entity has reported positive relevant outgoings (ie a net cash inflow) in item 8.3, answer item 8.7 as "N/A". Otherwise, a figure for the estimated quarters of funding available must be included in item 8.7.

8.8 If item 8.7 is less than 2 quarters, please provide answers to the following questions:

8.8.1 Does the entity expect that it will continue to have the current level of net operating cash flows for the time being and, if not, why not?

Answer:

8.8.2 Has the entity taken any steps, or does it propose to take any steps, to raise further cash to fund its operations and, if so, what are those steps and how likely does it believe that they will be successful?

Answer:

8.8.3 Does the entity expect to be able to continue its operations and to meet its business objectives and, if so, on what basis?

Answer:

Note: where item 8.7 is less than 2 quarters, all of questions 8.8.1, 8.8.2 and 8.8.3 above must be answered.

Compliance statement

1 This statement has been prepared in accordance with accounting standards and policies which comply with Listing Rule 19.11A.

2 This statement gives a true and fair view of the matters disclosed.

Date: 29 October 2026

Authorised by: Board of Directors
(Name of body or officer authorising release – see note 4)

Notes

1. This quarterly cash flow report and the accompanying activity report provide a basis for informing the market about the entity's activities for the past quarter, how they have been financed and the effect this has had on its cash position. An

For personal use only

entity that wishes to disclose additional information over and above the minimum required under the Listing Rules is encouraged to do so.

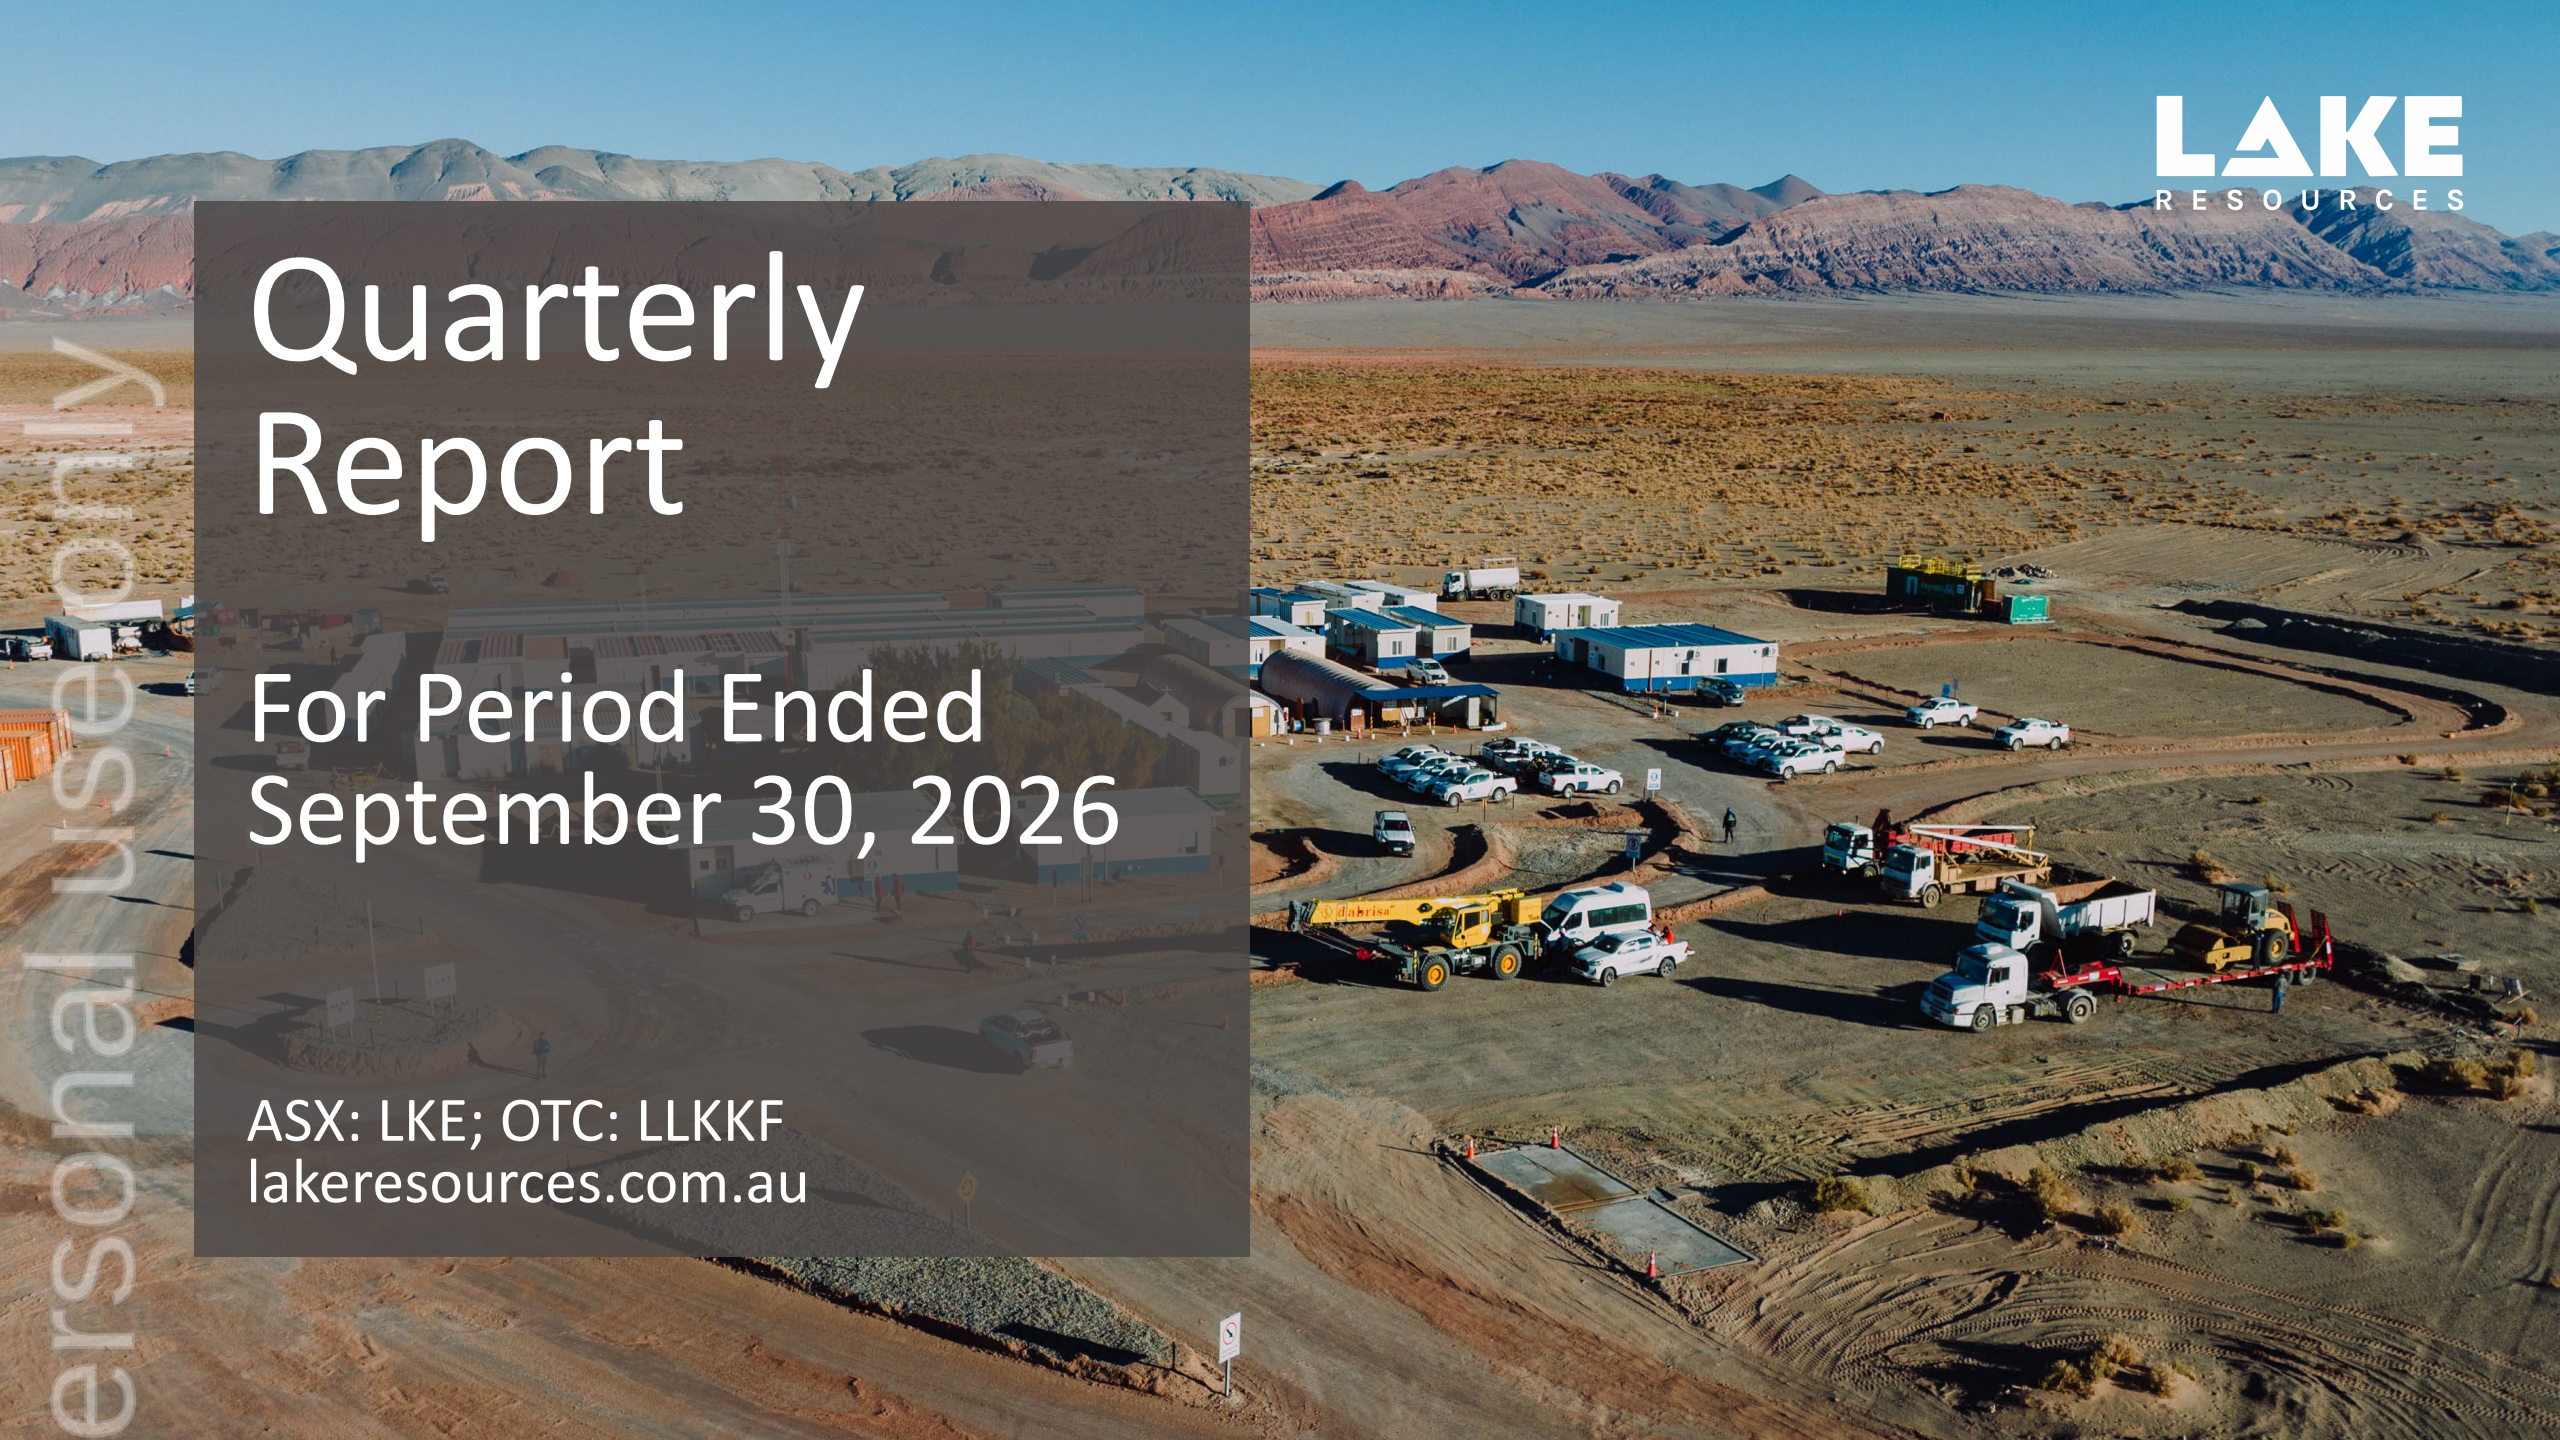

2. If this quarterly cash flow report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, *AASB 6: Exploration for and Evaluation of Mineral Resources* and *AASB 107: Statement of Cash Flows* apply to this report. If this quarterly cash flow report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standards apply to this report.

3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.

4. If this report has been authorised for release to the market by your board of directors, you can insert here: "By the board". If it has been authorised for release to the market by a committee of your board of directors, you can insert here: "By the [*name of board committee – eg Audit and Risk Committee*]". If it has been authorised for release to the market by a disclosure committee, you can insert here: "By the Disclosure Committee".

5. If this report has been authorised for release to the market by your board of directors and you wish to hold yourself out as complying with recommendation 4.2 of the ASX Corporate Governance Council's *Corporate Governance Principles and Recommendations*, the board should have received a declaration from its CEO and CFO that, in their opinion, the financial records of the entity have been properly maintained, that this report complies with the appropriate accounting standards and gives a true and fair view of the cash flows of the entity, and that their opinion has been formed on the basis of a sound system of risk management and internal control which is operating effectively.

Executive Update

Quarterly Highlights

- Lake Resources ("Lake" or the "Company") received from the Catamarca Ministry of Mining the Environmental Impact Declaration ("DIA") for the flagship Kachi Lithium Brine Project ("Kachi").[1] The DIA positions Kachi as one of the very few fully permitted, large-scale, independent greenfield lithium brine projects globally to reach this advanced stage and the first commercial-scale DLE project in South America permitted for reinjection.[2]
- Following the DIA, Kachi has now moved into the Front-End Engineering Design ("FEED") phase for optimisation of execution schedules and determination of final capital costs alongside engineering partners.
- Advanced Kachi's power discussion at both the federal and provincial levels as part of a focused effort to secure a more attractive grid-based power alternative.
- Appointed Michael Gabora as the Company's Competent Person. Mr Gabora is a registered geoscientist in Ontario, Canada, and in Arizona and Texas, United States, and is a member of the Australian Institute of Geoscientists.[3]
- Lake published its 2026 Annual Report[4] and advised that the 2026 Annual General Meeting ("AGM") is scheduled for Thursday, 19 November 2026.[5]
- Continued to actively engage and progress discussions with a wide array of potential global off-takers and strategic partners from countries including India, Korea, Japan, Europe and U.S., and including the addition of new parties to Kachi's virtual data room.
- Lake expects to submit soon Kachi's well-advanced application for Régimen de Incentivo para Grandes Inversiones ("RIGI").
- Lake ended the quarter with liquidity of $10.1 million, including the receipt of $7.9 million in proceeds via the At-the-Market Subscription Agreement ("ATM").[6]

Operational Update

Kachi

Exploitation Environmental Impact Assessment[1]

- During the quarter, Lake achieved a major milestone with the Catamarca Ministry of Mining officially issuing the DIA for Kachi.
  - Lake's Managing Director and CEO, David Dickson, said "*securing the Environmental Impact Declaration for Kachi is the most important milestone in Lake Resources' and Kachi's history*."
- Transitions Kachi into the FEED phase, for optimisation of execution schedules and determination of final capital costs alongside engineering partners.
  - Evaluation of potential FEED engineering contractors is ongoing.
  - Positions Lake well for advancing strategic partnership discussions while also refreshing global outreach.

Power Supply

- Management continues to actively progress its engagement with potential power providers, and Argentinian federal and provincial officials on two alternative grid-based power options with a view to ensuring the most economical power solution for Kachi with the smallest environmental footprint.
  - On the "**Northern Power-Line**" grid-based option, Lake continues to monitor the progress of power provider YPF Luz; this option was included in the August 2025 DFS Addendum.[2]
  - Lake is also exploring **"Southern Power-Line"** grid-based alternatives associated with the Alumbrera corridor.[3]
  - Lake continues to evaluate solar and battery energy storage systems on both a stand-alone, and in combination with other grid-based solutions.

Operational Update (cont.)

Kachi

Lilac's fifth-generation ion exchange technology

- Lilac Solutions ("Lilac"), Kachi's 20% owner and technology partner is in late-stage development of its first commercial facility on the Great Salt Lake ("GSL") in Utah. Phase 1 is designed to produce 5,000 tpa LCE, with a planned Phase 2 that will bring total production to 20,000 tpa LCE.
- During the quarter, Lilac was awarded a US$100 million Department of Energy grant to support GSL Phase 1 and is rapidly advancing toward final investment decision.
- Regarding Kachi's receipt of the DIA:
  - **Regulatory validation**: Lilac's ion exchange (IX) technology remains safe for reinjection, a key benchmark for regulators and local communities throughout the review.
  - **Environmental performance:** Lilac's process uses minimal land, delivers the lowest water consumption of any approved DLE project in Latin America, and returns more than 99% of the extracted brine directly to the reservoir, minimizing disruption to the local community and ecosystem.

LAKE RESOURCES

Corporate

Cash Position and Finance

- Lake held cash of $10.1 million (US$7.1 million) at 30 September 2026 (including currencies in AUD, USD and Argentine Pesos).[1]
  - $10.1 million in liquidity at 30 September 2026 was a material improvement from the $6.7 million at 30 June 2026 and in-line with the $10.7 million at 31 March 2026.
- During the quarter, raised $7.9 million from the issuance of 157,500,000 shares via the ATM.[2]
- Quarterly payments to related parties of the entity and their associates:
  - Amounts paid to related parties of Lake and their associates during the quarter were $0.53 million. These amounts relate to fees / salaries (including superannuation) paid to directors during the quarter.
- Cash outflow of approximately $1.09 million related to exploration and evaluation activities during the quarter was primarily for finalizing the DIA, exploring alternative power solutions, and transitioning into the FEED phase. The Company had no substantive mining production or development activities during the quarter.
- Lake maintains financial flexibility via cash balances, its ATM and direct share placement with current share availability under Listing Rule 7.1 and 7.1A providing access to capital to advance Kachi's key operational priorities.
- After reaching a new multi-year quarterly low spend of approximately $4.0 million (in the prior quarter), outgoings increased a modest 6.8% in the current quarter to $4.3 million reflecting management's continued commitment to maintaining fiscal discipline while finalizing key operational priorities including the DIA.
