30 OCTOBER 2026

SEPTEMBER 2026 QUARTERLY REPORT

Highlights

- At the Ninnis Gold Project in Western Australia, a further 573 auger holes, including infill holes, will be completed under the expanded maiden auger programme
- Vita expands into New Zealand with execution of Heads of Agreement (**HoA**) with Otago Gold
- HoA offers exclusive access to key New Zealand exploration opportunities, initially in Southland and Otago, providing for Vita to complete deeper and / or larger scale exploration via access agreements held by Otago Gold for current and future leases
- Otago Gold is a burgeoning alluvial miner operating across multiple fronts with no intention to engage in deeper or larger scale exploration on its tenements
- HoA establishes a strategic alliance under which Vita has the exclusive right to evaluate, explore, develop and potentially mine large scale or hard-rock rights across Otago Gold's project portfolio
- 68km^2 Exploration Permit application lodged in the Bendigo area of Central Otago, adjoining Santana Minerals Limited (**ASX: SMI**) Bendigo-Ophir Gold Project
- Bendigo Region boasts a long history of alluvial and hard rock gold production dating from the 1860s[1]
- Vita has engaged with Iwi stakeholders[2] and local landowners regarding the application area
- Historical exploration across the area provides a geological pathway to guide initial exploration work
- A geochemistry-led exploration programme is being planned, subject to permit grant

Vita Resources NL (**ASX: VTA, Vita**, or **the Company**) is pleased to provide shareholders with its Quarterly Report for the three-month period ending 30 September 2026.

At the end of the Quarter, Vita's portfolio comprised:

- **Gold**
  - Bendigo Exploration Permit Application (EPA61721.01), Central Otago, New Zealand
  - Ninnis Gold Project, Northern Goldfields, WA
  - ICE Polymetallic Project, Canada
- **Copper**
  - ICE Polymetallic Project, Canada
  - Mariner Copper Project, Canada
  - REE and Copper Project, Sweden
- **Rare Earths**
  - REE and Copper Project, Sweden

Ninnis Gold Project

Northern Goldfields, Western Australia

The Ninnis Gold Project (Ninnis Project) (E39/2110) comprises 25km^2 of prospective yet underexplored ground in the Northern Goldfields region of Western Australia, located near the sealed Leonora to Laverton Road, approximately 30km west of the township of Laverton.

E39/2110 is situated within a world-class gold province, just 6km from the well-known Mount Morgans Gold Mining Centre, acquired by Genesis Minerals (**ASX: GMD**) following its takeover of Dacian Gold in 2023[3]. The Ninnis Project is also situated near several other major gold operations, including Granny Smith (2.389Moz gold)[4], Sunrise Dam (MRE 0.97Moz gold)[5] and Magnetic Resources' (now wholly owned by GMD) projects located to the east of the Ninnis Project, including the Lady Julie Project (MRE 2.1Moz)[6].

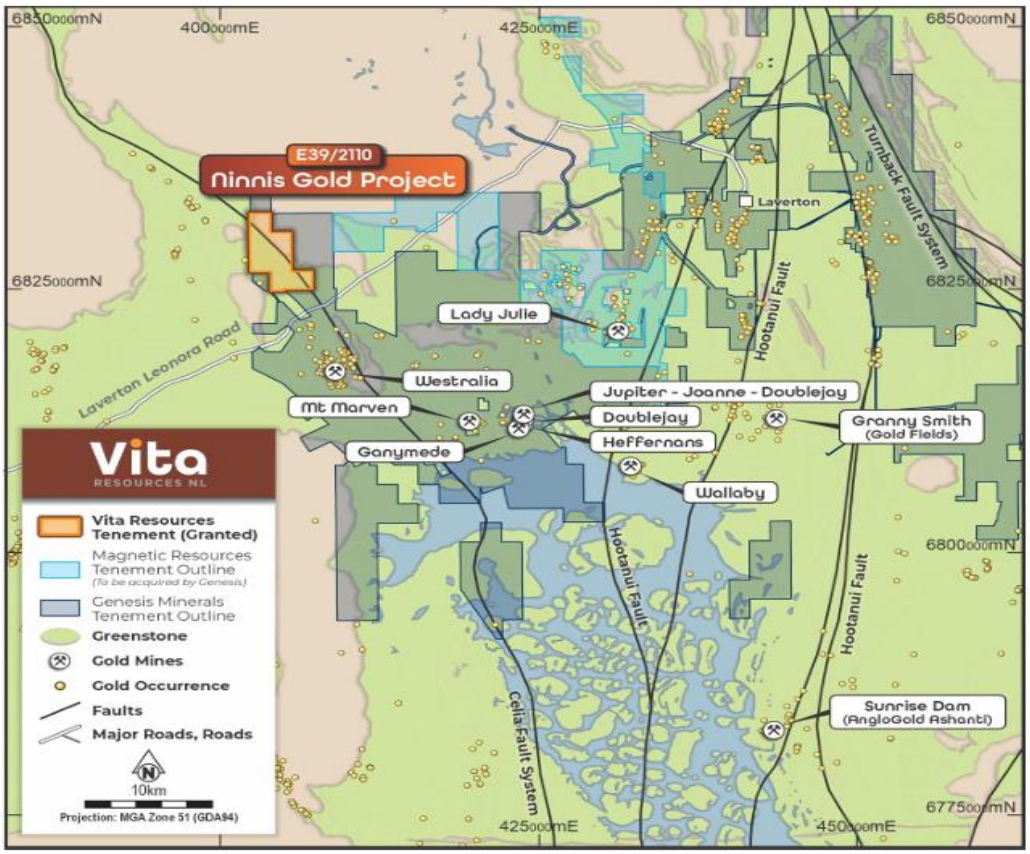

Figure 1. Ninnis Gold Project location

The Ninnis Project shares key geological characteristics with the nearby Mount Morgans Gold Mine[11], including mafic rocks and banded iron formations (**BIF**), with additional structural complexity along the eastern Ninnis Shear. Historical exploration was limited by shallow widely spaced drilling and extensive surface cover, which masked underlying mineralisation.

Auger Programme Expanded

Extraordinary wet weather conditions have continued to affect the recommencement of drilling at the Ninnis Project. Mobilisation cycles are being undertaken as ground conditions permit. The remaining 573 auger holes, including infill holes, will be completed under the expanded maiden programme.

Initial results reported from the completed 850 auger holes at the Ninnis Project are highly encouraging[7], with large gold in soil anomalies identified in the northern sector extending for 600m north-west. Closer spaced sampling in the southern sector identified a large and consistent gold in soil anomaly 500m north-south by 300m wide.

The infill component of the programme will target the two sub parallel fault zones along the eastern sector of the EL that received little auger coverage in maiden programme. These fault zones are identified as major structural controls on the mineralised system within the Transvaal and Craic gold mining areas at Mt Morgans.

Following completion of the maiden drilling programme, Vita intends to run a geochemistry review followed by an RC drilling programme. Planning for the RC drilling programme is underway.[11]

New Zealand Expansion

Otago Gold Heads of Agreement

In August 2026, Vita announced execution of a HoA with Otago Gold (NZ), establishing a strategic alliance under which the Company holds the exclusive right to evaluate, explore, develop and potentially mine large-scale and hard rock projects across Otago Gold's portfolio from a depth of 10m and below, while Otago Gold retains alluvial rights.

In addition to exploring Otago Gold leases, the Company will secure leases in its own name. The HoA remains subject to Vita completing due diligence before electing to proceed to a binding agreement.

Bendigo Exploration Permit Application

At Quarter end, Vita advised that through its New Zealand subsidiary Otago Exploration Ltd, it had lodged an Exploration Permit application (EPA61721.01) over 68km^2 in the Bendigo area of Central Otago.

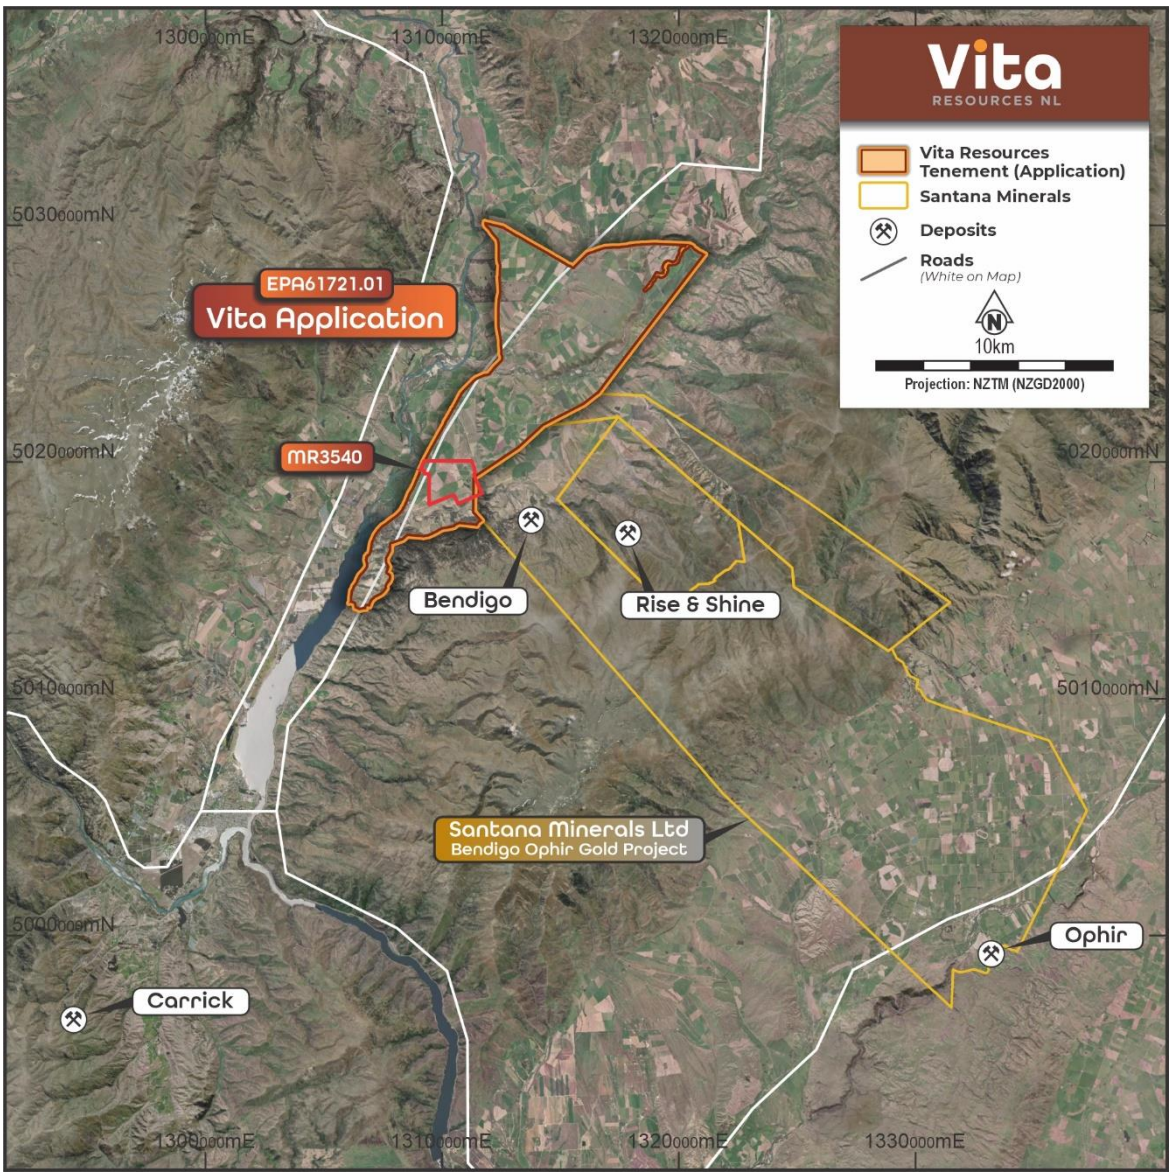

Figure 2. Vita Application location adjacent to Santana Minerals' Bendigo-Ophir Gold Project

The application area covers 68km^2 of a soil and alluvium-covered valley within the historic Bendigo goldfield in New Zealand, adjacent to Santana Minerals Limited's (**ASX: SMI**) Bendigo-Ophir Gold Project[8]. This region has produced gold from both alluvial workings and hard rock quartz lodes over more than 150 years.

Historical exploration records for the area, including a New Zealand Government Mineral Report, outline earlier drilling that recorded gold through the alluvial sequence and interpreted a local gold-bearing quartz-lode source within the underlying Otago Schist. The report states that the 1930s results were not comprehensive and that it is difficult to calculate overall grade, adding that gold is found throughout the section[9]. This information is historical and is not reported in accordance with the JORC Code 2012.

A follow-up drill programme in 1997 was undertaken 200m downstream of the most downstream drill line of the

1930's drilling[9]. The report states that potential exists for a reasonable deposit between the L&M drilling and the mouth of the gorge of Bendigo Creek.

The Company has met with the Iwi lands group and local landowners regarding the application area, with engagement with local stakeholders to continue. The Vita Board inspected the permit area during September 2026.

Subject to grant of the permit, Vita intends to commence an initial geochemistry-led exploration programme to identify and prioritise drill targets, consistent with the Company's approach of combining wide spaced drilling geochemistry and geophysics in recognition of the large footprints of the recent Bendigo Ophir discoveries.

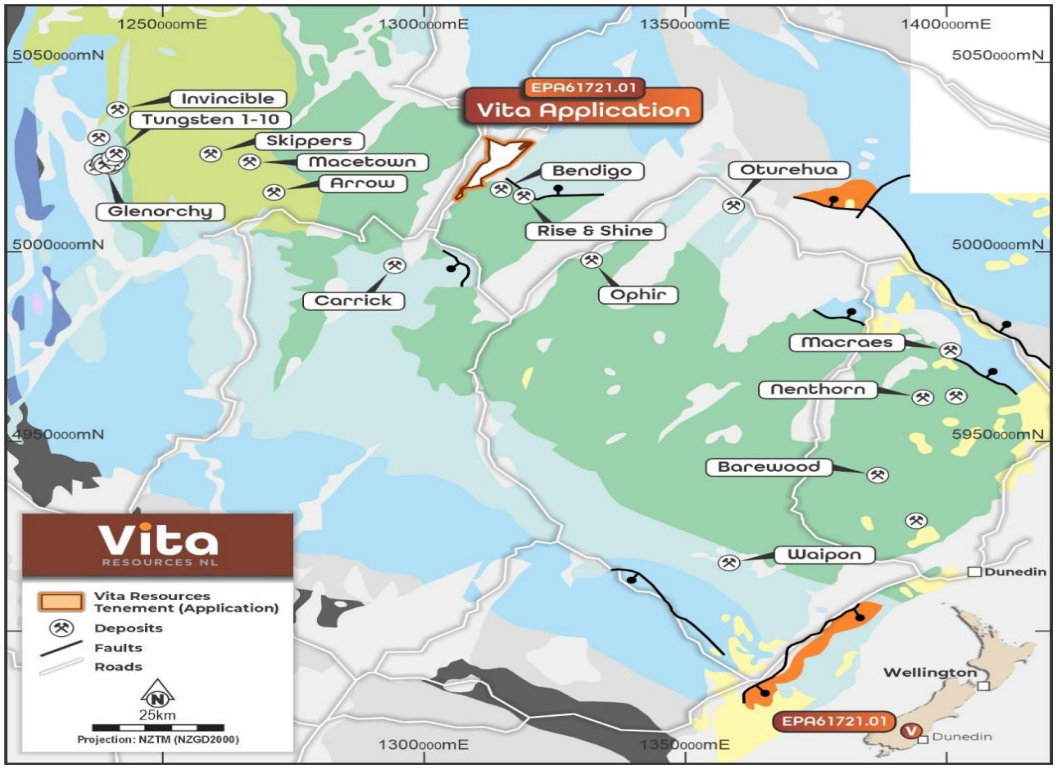

Figure 3. Geology surrounding the Vita Application in the Bendigo area

ICE Polymetallic Project

Yukon Province, Canada

The ICE Project currently contains a JORC Code Mineral Resource Estimate (MRE) of 6.43 Mt @ 1.07% Cu[10].

The new JORC Code (2012) re-estimation, announced in June 2025, confirmed the original foreign historical resource tonnage and grade for the ICE Copper-Gold Project. Vita reported indicated resources of 5.76Mt @ 1.09% Cu and inferred resources of 0.67Mt @ 0.83% Cu at a 0.3% cutoff.

The resource covers 115 drill holes, almost entirely <200m deep, with 92% of the resources classified as indicated. To date, less than 1% of the Project area has been tested, with multiple geochemical and geophysical targets providing potential for discovery of additional mineralisation zones.

Eleven priority targets have been identified, with potential for future discovery of additional zones of VHMS mineralisation near the resource and through the properties.

Corporate

Capital Partner

The Company advised in July 2026 that it had exercised its contractual right to terminate its capital raising mandate with Oakley Capital Partners.

Whilst Tranche 1 of the capital raising successfully raised $535,000 in gross proceeds, Tranche 2 will not proceed.

The Board is reviewing funding alternatives that are more closely aligned with the Company's strategic objectives and believes the Company remains well positioned to continue advancing its exploration and growth initiatives.

ASX Additional Information

Cash at the end of the September 2026 Quarter totalled $77,000.

Pursuant to ASX Listing Rule 5.3.1, exploration and evaluation expenditure of $37,000, as stated in section 2.1(d) and 8.2 of the attached Appendix 5B, was incurred across the September 2026 Quarter associated with geological consulting, field related activities and tenement compliance costs. Details of exploration and evaluation activity during the Quarter are set out in this report.

Pursuant to Listing Rule 5.3.2, the Company advises that it did not undertake any mining or development production activities during the Quarter.

In accordance with ASX Listing Rule 5.3.5 and as noted in section 6 of the Appendix 5B, payments of $134,000 were made during the Quarter comprising salaries, directors' fees and consulting fees for the Company's executive and non-executive directors. No other payments were made to any related parties of the entity or their associates.

Reporting of Exploration Results and Cautionary Statements

This Quarterly Activities Report contains information reported in accordance with the JORC Code, 2012. Full details of the exploration results referred to herein including relevant JORC information (such as JORC Table 1 information) as well as cautionary statements in relation to the reporting of pXRF results, can be obtained by accessing all of the Company's announcements on the ASX Announcements Platform or the Company's website.

The Company advises that further exploration work is required in order to confirm the abundance and economic potential of any mineralisation referred to in this Quarterly Activities Report and the Company's announcements incorporated by reference herein, given the early stage and historical nature of the results reported.

Events Subsequent to End of Quarter

As announced to ASX on 23 October 2026 Vita has advised that it is undertaking a Share Purchase Plan (SPP) to provide eligible existing shareholders with the opportunity to participate in a capital raising of up to $500,000. The SPP Shares will be issued at $0.021 per share. The SPP opened on 26 October 2026 and is expected to close on 6 November 2026.

This announcement was approved for release by the Board of Vita Resources NL

About Vita Resources

Vita Resources NL is an Australian-listed early-stage exploration company focused on copper, gold and critical minerals.

The Company owns a portfolio of two high-grade Canadian copper assets, namely the ICE copper-gold deposit in the Yukon Territory, Canada (ICE Project) and the Mariner Copper project in the Northwest Territories (NWT), Canada.

Vita presently holds a district scale high grade Rare-Earth, Copper, Gallium and Germanium exploration project in Sweden.

The Company also holds a prospective gold project in Western Australia. The Ninnis Gold Project is located approximately 30 kilometres west of Laverton, in the northern goldfields of Western Australia.

Vita has recently expanded into New Zealand with execution of a HoA with Otago Gold, a well established alluvial gold miner focused in the Southland and Otago regions of NZ. The HoA establishes a strategic alliance under which Vita has the exclusive right to evaluate, explore, develop and potentially mine large scale or hard-rock rights across Otago Gold's project portfolio. Additionally, Vita has lodged a 68km2 Exploration Permit application in the Bendigo Station area near Cromwell in Central Otago. The Permit Application adjoins Santana Minerals Limited (**ASX: SMI**) Bendigo-Ophir Gold Project.

Mining Activity

No mining activity occurred during the Quarter.

Competent Person Statement

The information in this report that relates to exploration results is based on information compiled by Mr Ray Muskett who is a Member of the Australasian Institute of Mining and Metallurgy (AusIMM). Mr Muskett is a Director of the Company and holds shares in the Company. Mr Muskett has sufficient experience relevant to the style of mineralisation and type of deposit under consideration and to the activity currently being undertaken to qualify as a Competent Person as defined in the 2012 edition of the "Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves". Mr Muskett consents to the inclusion in this report of the matters based on his information in the form and context in which it appears.

The information in the announcement that relates to Mineral Resources for ICE is extracted from the ASX announcement 11 June 2025 and is available to view on the Company's website. The Company confirms that it is not aware of any new information or data that materially affects the information included in the original market announcements and that all material assumptions and technical parameters underpinning the estimates in the relevant market announcements continue to apply and have not materially changed. The Company confirms that the form and context in which the Competent Person's findings are presented have not been materially modified from the original market announcement.

The information in this report that references previously reported exploration results is extracted from the Company's ASX market announcements released on the date noted in the body of the text where that reference appears. The previous market announcements are available to view on the Company's website or on the ASX website (www.asx.com.au). The Company confirms that it is not aware of any new information or data that materially affects the information included in the original market. The Company confirms that the form and context in which the Competent Person's findings are presented have not been materially modified from the original market announcements.

Forward-Looking Statements

Certain statements contained in this Announcement, including information as to the future financial or operating performance of Vita Resources and its projects may also include statements which are 'forward-looking statements' that may include, amongst other things, statements regarding targets, estimates and assumptions in respect of mineral reserves and mineral resources and anticipated grades and recovery rates, production and prices, recovery costs and results, capital expenditures and are or may be based on assumptions and estimates related to future technical, economic, market, political, social and other conditions. These 'forward-looking statements' are necessarily based upon a number of estimates and assumptions that, while considered reasonable by Vita Resources, are inherently subject to significant technical, business, economic, competitive, political and social uncertainties and contingencies and involve known and unknown risks and uncertainties that could cause actual events or results to differ materially from estimated or anticipated events or results reflected in such forward-looking statements.

Vita Resources disclaims any intent or obligation to update publicly or release any revisions to any forward-looking statements, whether as a result of new information, future events, circumstances or results or otherwise after the date of this Announcement or to reflect the occurrence of unanticipated events, other than required by the Corporations Act 2001 (Cth) and the Listing Rules of the Australian Securities Exchange (ASX). The words 'believe', 'expect', 'anticipate', 'indicate', 'contemplate', 'target', 'plan', 'intends', 'continue', 'budget', 'estimate', 'may', 'will', 'schedule' and similar expressions identify forward-looking statements.

All 'forward-looking statements' made in this Announcement are qualified by the foregoing cautionary statements. Investors are cautioned that 'forward-looking statements' are not guarantee of future performance and accordingly investors are cautioned not to put undue reliance on 'forward-looking statements' due to the inherent uncertainty therein.

8.	Estimated cash available for future operating activities	$A'000
8.1	Net cash from / (used in) operating activities (item 1.9)	(380)
8.2	(Payments for exploration & evaluation classified as investing activities) (item 2.1(d))	(37)
8.3	Total relevant outgoings (item 8.1 + item 8.2)	(417)
8.4	Cash and cash equivalents at quarter end (item 4.6)	77
8.5	Unused finance facilities available at quarter end (item 7.5)	-
8.6	Total available funding (item 8.4 + item 8.5)	77
8.7	**Estimated quarters of funding available (item 8.6 divided by item 8.3)**	0.2

Note: if the entity has reported positive relevant outgoings (ie a net cash inflow) in item 8.3, answer item 8.7 as "N/A". Otherwise, a figure for the estimated quarters of funding available must be included in item 8.7.

8.8 If item 8.7 is less than 2 quarters, please provide answers to the following questions:

8.8.1 Does the entity expect that it will continue to have the current level of net operating cash flows for the time being and, if not, why not?

Answer: Yes.

8.8.2 Has the entity taken any steps, or does it propose to take any steps, to raise further cash to fund its operations and, if so, what are those steps and how likely does it believe that they will be successful?

Answer: The Company is actively managing its funding requirements through a range of capital management and funding initiatives currently being contemplated, including its current Share Purchase Plan. The Board continues to assess alternative sources of funding and capital generation. The Company is confident in its ability to pursue appropriate funding solutions to support its ongoing operations, execute its corporate strategy strategy and business objectives.

8.8.3 Does the entity expect to be able to continue its operations and to meet its business objectives and, if so, on what basis?

Answer: The Company will manage cash reserves, prioritise commitments and exploration activities in line with available funding. The Company's ability to implement its planned exploration programmes and achieve its broader business objectives will depend on its ability to secure additional funding. The Board will continue to monitor the Company's financial position and take appropriate steps to manage its cash requirements.

Note: where item 8.7 is less than 2 quarters, all of questions 8.8.1, 8.8.2 and 8.8.3 above must be answered.

Notes

1. This quarterly cash flow report and the accompanying activity report provide a basis for informing the market about the entity's activities for the past quarter, how they have been financed and the effect this has had on its cash position. An entity that wishes to disclose additional information over and above the minimum required under the Listing Rules is encouraged to do so.

2. If this quarterly cash flow report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, *AASB 6: Exploration for and Evaluation of Mineral Resources* and *AASB 107: Statement of Cash Flows* apply to this report. If this quarterly cash flow report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standards apply to this report.

3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.

4. If this report has been authorised for release to the market by your board of directors, you can insert here: "By the board". If it has been authorised for release to the market by a committee of your board of directors, you can insert here: "By the [*name of board committee – eg Audit and Risk Committee*]". If it has been authorised for release to the market by a disclosure committee, you can insert here: "By the Disclosure Committee".

5. If this report has been authorised for release to the market by your board of directors and you wish to hold yourself out as complying with recommendation 4.2 of the ASX Corporate Governance Council's *Corporate Governance Principles and Recommendations*, the board should have received a declaration from its CEO and CFO that, in their opinion, the financial records of the entity have been properly maintained, that this report complies with the appropriate accounting standards and gives a true and fair view of the cash flows of the entity, and that their opinion has been formed on the basis of a sound system of risk management and internal control which is operating effectively.
