Answer: The Company does not anticipate that the current level of net operating cash outflows will continue, as expenditure during the quarter was elevated due to drilling activities, geophysics and annual concession payments. These expenditures are not expected to recur at the same level in the forthcoming quarter. The Company continues to actively manage its expenditure in line with planned exploration activities and available funding.

8.8.2	Has the entity taken any steps, or does it propose to take any steps, to raise further cash to fund its operations and, if so, what are those steps and how likely does it believe that they will be successful?

The Company considers that it has reasonable prospects of successfully completing the capital raising, subject to prevailing market conditions and investor support.
8.8.3	Does the entity expect to be able to continue its operations and to meet its business objectives and, if so, on what basis?
Answer:	The Company expects to be able to continue its operations and pursue its business objectives through the prudent management of existing cash reserves, prioritisation of planned exploration activities and access to additional funding as required. The Company will continue to monitor its cash position and adjust expenditure and operational activities to align with available financial resources.
